Consultation

A detailed assessment of the human remains was made by the Department of Anthropology, Southern Methodist University professional staff in consultation with representatives of the Apache Tribe of Oklahoma; Comanche Nation, Oklahoma; Tonkawa Tribe of Indians of Oklahoma; and the Wichita and Affiliated Tribes (Wichita, Keechi, Waco & Tawakonie), Oklahoma (hereafter referred to as “The Tribes”).

History and Description of the Remains

At an unknown time, human remains representing, at minimum, one individual were removed from 41TR162, known as the River Legacy Park site, Tarrant County, TX. This site was identified from an auger test within the larger ‘Arlington to TRA Trinity River Pipeline’ mitigation survey. While a collection consisting of faunal remains, shell, and lithic material was used to identify the site, the 1997 survey did not identify a human tooth among the collection. The human remains consist of one human tooth. No known individuals were identified. No associated funerary objects are present.

A Late Prehistoric date for the site is based on previous stratigraphic studies of the area. Cultural affiliations are based on the groups who have expressed interest in materials from Tarrant County, TX.
