

National Agricultural Statistics Service

Title: Cooperator Funded Chemical Use Surveys.

OMB Control Number: 0535–0273.

Summary of Collection: The primary function of the National Agricultural Statistics Service (NASS) is to prepare and issue current official State and national estimates of crop and livestock production, value, disposition, and resource use. General authority for these data collection activities is granted under U.S. Code title 7, section 2204. This statute specifies that “The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . . and shall distribute them among agriculturists.” NASS’s cooperators have sought NASS’s assistance to provide statistics beneficial to agriculture but are not covered by NASS’s annual Congressional appropriation.

Data collected in the Maryland Pesticide Usage Survey will provide the Maryland Dept. of Agriculture (MdDA) with comprehensive information about what pesticides are being used around the state and future surveys will help determine what trends are developing. The data will also help agriculture and industry professionals understand what is being used, and it will provide public and environmental health experts with information that can help them focus their research and monitoring efforts.

The primary use for the Minnesota Pesticide and Fertilizer Survey data will be to allow the Minnesota Dept. of Agriculture (MnDA) staff to evaluate the effectiveness and adoption levels of the voluntary Best Management Practice (BMP) guidelines by periodically summarizing pesticide and fertilizer use statistics at the county level and MnDA management district levels. County level detail is needed because there are different BMPs written for specific Pesticide Management Areas (PMA) based on chemical residue found in ground water or surface water through other monitoring means. Fertilizer data will be summarized under different Nitrogen Best Management Practice Regions based on soil types and a separate monitoring program. Results from the Minnesota Pesticide and Fertilizer Best Management Practices Survey will allow the MnDA staff to promote the voluntary nature of the BMPs by demonstrating the adoption levels and practices farmers are using have remained consistent with the BMP guidelines. If verified, this will avoid the need for any mandatory restrictions on chemical use and/or practices.

The primary use for the Mississippi State University Extension Service’s (MSUES) Field Crop Production Practice and Chemical Use Surveys will be to create Enterprise Budgets for corn, cotton, rice, wheat, and soybeans. No chemical use data will be published, but chemical use data are an important part of determining Enterprise Budgets.

The Illinois Nutrient Loss Reduction Strategy (NLRS) survey will be conducted on an every-other year basis (for odd numbered years) through a cooperative agreement with the Illinois Nutrient Research Education Council, developed by the Illinois Department of Agriculture. The goal of this survey is to produce statistically defensible estimates of several “in field” and “edge of field” practices conducted by Illinois farmers. These practices have been shown to positively impact water quality by reducing runoff and leaching of nutrients into the waters of Illinois. One of the primary goals of the NLRS is to track implementation of these cultural practices over time to measure implementation of the NLRS.

Need and Use of the Information: The Field Crop Production Practice and Chemical Use Surveys in this request will be conducted to meet research and publication goals for Extension and State Departments of Agriculture. The summarized and published information will be analyzed by the sponsoring cooperators and stakeholders in agriculture. Results will be used to study production agriculture, as well as various programs and policies to determine their impact on agricultural producers and consumers.

Description of Respondents: Businesses or other for-profits; Farms and ranches.

Number of Respondents: 24,200.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 11,571.

Levi S. Harrell,

Departmental Information Collection Clearance Officer.

COMMISSION ON CIVIL RIGHTS

Notice of Public Briefing of the Guam Advisory Committee to the U.S. Commission on Civil Rights; Correction

AGENCY: Commission on Civil Rights.

ACTION: Notice; correction.

SUMMARY: The Commission on Civil Rights published a notice in the **Federal**

Register on Tuesday, May 13, 2025, concerning a briefing of the Guam Advisory Committee. The briefing time has since changed to 8:00 a.m.–10:00 a.m. ChST (6:00 p.m.–8:00 p.m. ET).

FOR FURTHER INFORMATION CONTACT: Liliana Schiller, Support Services Specialist, at lschiller@usccr.gov or (202) 770–1856.

SUPPLEMENTARY INFORMATION:**Correction:**

In the **Federal Register** on Tuesday, May 13, 2025, in FR Document Number 2025–08391, on page 20271, first column, correct the meeting time to: 8:00 a.m.–10:00 a.m. ChST (6:00 p.m.–8:00 p.m. ET).

Dated: May 16, 2025.

David Mussatt,

Supervisory Chief, Regional Programs Unit.

DEPARTMENT OF COMMERCE**Foreign-Trade Zones Board**

[B–7–2025]

Foreign-Trade Zone (FTZ) 207; Withdrawal of Notification of Proposed Production Activity; Kaiser Aluminum Fabricated Products, LLC; (Aluminum Products); Richmond, Virginia

Notice is hereby given of the withdrawal of the notification of proposed production activity submitted by Kaiser Aluminum Fabricated Products, LLC for its facility in Richmond, Virginia, within FTZ 207. The notification was docketed on February 10, 2025 (90 FR 9709, February 18, 2025). The withdrawal was requested by Kaiser Aluminum Fabricated Products, LLC on May 16, 2025.

Dated: May 16, 2025.

Elizabeth Whiteman,

Executive Secretary.
