**SUPPLEMENTARY INFORMATION:**

## **I. Introduction**

The Nuclear Regulatory Commission (NRC) is issuing a license amendment to AppTec Laboratory Services, Inc. (AppTec) for Materials License No. 29-28152-01, to terminate the license and authorize release of its facility in Camden, New Jersey, for unrestricted use. NRC has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR Part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The amendment will be issued following the publication of this Notice.

## **II. EA Summary**

The purpose of the action is to authorize the release of the licensee's Camden, New Jersey, facility for unrestricted use. AppTec was authorized by NRC from April 7, 1988, to use radioactive materials for research and development purposes at the site. On July 28, 2004, AppTec requested that NRC release the facility for unrestricted use. AppTec has conducted surveys of the facility and provided information to the NRC to demonstrate that the site meets the license termination criteria in Subpart E of 10 CFR Part 20 for unrestricted use.

The NRC staff has prepared an EA in support of the license amendment. The facility was remediated and surveyed prior to the licensee requesting the license amendment. The NRC staff has reviewed the information and final status survey submitted by AppTec. Based on its review, the staff has determined that there are no additional remediation activities necessary to complete the proposed action. Therefore, the staff considered the impact of the residual radioactivity at the facility and concluded that since the residual radioactivity meets the requirements in Subpart E of 10 CFR Part 20, a Finding of No Significant Impact is appropriate.

## **III. Finding of No Significant Impact**

The staff has prepared the EA (summarized above) in support of the license amendment to terminate the license and release the facility for unrestricted use. The NRC staff has evaluated AppTec's request and the results of the surveys and has concluded that the completed action complies with the criteria in Subpart E of 10 CFR Part 20. The staff has found that the environmental impacts from the action are bounded by the impacts evaluated by NUREG-1496, Volumes 1-3,
