

Commission estimates that the time and financial burden to the NPAs in completing the proposed form will be significantly lower than required by the corresponding sections of the existing IEE form. Over time, this form will further substantially reduce the burden on NPAs because, in most cases, it will be filled out only once per employee—*i.e.*, when an employee is onboarded—and not on an annual basis as required by the existing IEE form. For employees with a non-permanent disability, the form will be completed on a recurring, seven-year basis. The Commission estimates that approximately 10% of

employees with qualifying disabilities will have non-permanent disabilities. To calculate the burden for completion of the proposed form, the Commission considered an estimate from the Society for Human Resource Management that the average annual turnover across all industries is approximately 18 percent. Using this number, the Commission estimated that NPAs may need to complete this form for approximately 18 percent of their total employees each year. However, AbilityOne employers may experience lower turnover than employers in the general economy. The Commission

acknowledges that net AbilityOne job growth may result in NPAs completing additional forms for new employees. The table below shows the Commission’s estimate for the average amount of time per employee for whom the NPAs complete a form, both in the first year of implementation (“Year 1”) and in the following years of implementation (“Years 2+”). The Commission recognizes that NPAs vary widely in total number of employees. Therefore, an NPA can apply this analysis based on their individual employment totals.

| Number of employees for whom NPA must complete form | Annual turnover/entry rate of 18% | Maximum responses for this form | Annual form burden (hours/employee) | Total time burden for all employees (hours) | Annual form cost burden (dollars) |
|---|-----------------------------------|---------------------------------|-------------------------------------|---|-----------------------------------|
| 62,798 (Year 1) | 11,304 | 74,102 | 0.5 | 37,051 | 1,144,134.9 |
| 11,304 (Years 2+) | 2,035 | 13,339 | 0.5 | 6,669.5 | 205,954.2 |

NPAs can calculate their overall time burden (in hours) by multiplying the number of qualified direct labor employees they have by 0.5. The cost burden is based upon national average pay data from the U.S. Bureau of Labor Statistics, using the May 2022 National Occupational Employment and Wage Estimate of \$30.88 as the median hourly wage for a Human Resources Specialist (OC 13–1070). (https://www.bls.gov/oes/current/oes_nat.htm#11-0000).

With respect to this collection of information via the proposed form, the Commission welcomes comments on the following:

1. The necessity to collect this information to support the Commission’s mission and oversight responsibilities;
2. Methodology to improve the accuracy of the estimated time burden; *i.e.*, specific year-over-year employee turnover rates for NPAs or number of additional employee hires above turnovers, expressed as a percentage of the NPAs’ total number of qualified direct labor employees;
3. Methodology to determine the percentage of individuals with qualifying disabilities who will have non-permanent disabilities;
4. Suggestions or methods to minimize the burdens associated with collecting the information described in this ICR.

Director, Business Operations.

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Wednesday, November 6, 2024. A business meeting will be held the following month on Thursday, December 5, 2024. Both the hearing and the business meeting are open to the public and will be conducted virtually.

Public Hearing. The Commission will conduct the public hearing virtually on November 6, 2024, commencing at 1:30 p.m. Hearing items will include draft dockets for withdrawals, discharges, and other projects that could have a substantial effect on the basin's water resources. A list of the projects scheduled for hearing, including project descriptions, along with links to draft docket approvals, will be posted on the Commission's website, www.drbc.gov, in a long form of this notice at least ten days before the hearing date.

The public is advised to check the Commission's website periodically during the ten days prior to the hearing date, as items scheduled for hearing may be postponed if additional time is needed to complete the Commission's review. Items also may be added up to ten days prior to the hearing date. In reviewing docket descriptions, the public is asked to be aware that the details of projects may change during the Commission's review, which is ongoing.

Business Meeting. The business meeting on December 5, 2024 will be

The agenda is expected to include consideration of the draft dockets for withdrawals, discharges, and other projects that were subjects of the public hearing on November 6, 2024.

After all scheduled business has been completed and as time allows, the business meeting will be followed by up to one hour of Open Public Comment, an opportunity to address the Commission off the record on any topic concerning management of the basin's water resources outside the context of a duly noticed, on-the-record public hearing.

When the Commissioners defer an action, they may announce an additional period for written comment on the item, with or without an additional hearing date, or they may take additional time to consider the input they have already received without requesting further public input.
