DEPARTMENT OF ENERGY

Financial Assistance Award (Grant)

AGENCY: Department of Energy (DOE).

ACTION: Notice of solicitation of applications for grant awards for high-energy density and laser-matter interaction studies.

SUMMARY: Pursuant to 10 CFR 600.8, the DOE announces that it plans to conduct a technically competitive solicitation for basic research experiments in high energy density and laser matter interaction studies at the National Laser Users' Facility (NLUF) located at the University of Rochester Laboratory for Laser Energetics (UR/LLE). Grant Solicitation No. DE-PS03-00SF22056. Universities or other higher education institutions, private sector not-for-profit organizations, or other entities are invited to submit grant applications. The total amount of funding (project cost) expected to be available for Fiscal Years 2001 and 2002 program cycle is \$1,400,000. Multiple awards are anticipated under the total budget of \$700,000 per year.

FOR FURTHER INFORMATION CONTACT:

Janice Williams, Contract Specialist, DOE Oakland Operations Office, 1301 Clay Street, Room 700N, Oakland, CA 94612-5208, Telephone No.: (510) 637-1914, Facsimile No.: (510) 637-2074, E-mail janice.williams@oak.doe.gov.

SUPPLEMENTARY INFORMATION: The solicitation document contains all the information relative to this action for prospective applicants. The solicitation is targeted for release on or about March 31, 2000. The actual work to be accomplished will be determined by the experiments and diagnostic techniques that are selected for award. Proposed experiments and diagnostic techniques will be evaluated through scientific peer review against predetermined, published and available criteria. Final selection will be made by the DOE. It is anticipated that multiple grants will be awarded within the available funding. The unique resources of the NLUF are available to scientists for state-of-the art experiments primarily in the area of inertial confinement fusion (ICF) and related plasma physics. Other areas such as spectroscopy of highly ionized atoms, laboratory astrophysics, fundamental physics, material science, and biology and chemistry will be considered on a secondary basis. The LLE was established in 1970 to investigate the interaction of high power lasers with matter. Available at the LLE for NLUF researchers is the OMEGA LASER, a 30 kJ UV 60 beam laser system (at 0.35 um) suitable for direct-drive ICF implosions. This system is suitable for a variety of experiments including laser-plasma interactions and atomic spectroscopy. The NLUF program for FY 2001 & FY 2002 is to concentrate on experiments that can be done with the OMEGA laser at the University of Rochester and development of diagnostic techniques suitable for the

OMEGA system. Measurements of the laser coupling, laser-plasma interactions, core temperature, and core density are needed to determine the characteristics of the target implosions. Diagnostic techniques could include either new instrumentation, development of analysis tools, or development of targets that are applicable for 30 kJ implosions. Additional information about the facilities and potential collaboration at the NLUF can be obtained from: Dr. John Soures, Manager, National Laser Users' Facility, University of Rochester/LLE, 250 East River Road, Rochester, NY 14623.

Issued in Oakland, CA on March 28, 2000.

DEPARTMENT OF ENERGY

Office of International Affairs; Asia-Pacific Economic Cooperation Energy Ministers Conference

AGENCY: Department of Energy.

ACTION: Notice of upcoming conference.

SUMMARY: The U.S. Department of Energy and the City of San Diego, California, will co-sponsor the Asia-Pacific Economic Cooperation (APEC) Energy Ministers Conference: "Turning Vision Into Reality," in San Diego, California. The Conference will focus on strategies to implement existing policy commitments and to enhance investment in clean and sustainable energy development, on opportunities for regional energy market integration, and on continued transition to a market-oriented business climate. The region's energy ministers, and representatives of the private sector, multilateral institutions and nongovernment organizations will work together to create a vision for the 21st Century that will support clean and sustainable energy and economic development.

DATES: The three-day conference will be held from May 10-12, 2000.

FOR FURTHER INFORMATION CONTACT: For further information and to register on line, please visit our website on www.apecenergy.org. You may also contact APEC Conference Headquarters on 703-352-7633, or via fax on 703-352-9513 for further information regarding the conference. For inquiries regarding exhibits for industry displays, please contact John Reyes in San Diego,

California by telephone on 619-557-2803.

SUPPLEMENTARY INFORMATION: This is the first time the Department of Energy has hosted an APEC Energy Ministers Conference. Initial plans for the Conference were announced in February.

Attendees: Approximately 600 participants are expected to attend the event, including representation by international and regional organizations such as the World Bank, International Finance Corporation, and the Asian Development Bank; Energy Ministers and representatives of APEC member economies; and private sector representatives from the region's major electricity, oil, gas, renewable and energy efficiency, energy service and coal companies.

Issued in Washington, DC on March 24, 2000.

David L. Goldwyn,

Assistant Secretary for International Affairs.

[Docket No. GT00-21-000]

Canyon Creek Compression Company; Notice of Proposed Changes in FERC Gas Tariff

March 30, 2000.

Take notice that on March 28, 2000, Canyon Creek Compression Company (Canyon) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, certain tariff sheets to be effective May 1, 2000.

Canyon states that the purpose of this filing is to make several minor "clean-up" type changes to its Tariff. None of these changes are substantive in nature, but rather are administrative changes to correct references in Canyon's Tariff which have become inaccurate due to changed circumstances. Specifically, the changes are to: (1) revise the Preliminary Statement to reflect a change in address and status of Canyon's Rate Schedules FCS and ICS to reflect a change in address and telecopy number for Canyon's Houston, Texas office; (3) revise Section 15.4 of the General Terms and Conditions (GT&C) of Canyon's Tariff regarding the installation of Internet software related to users of Canyon's DART software; (4) revise Section 31.2(a) of the GT&C of Canyon's Tariff to reflect a title and general office location reference change

regarding the addressing of formal complaints; and (5) revise Section 34.3 of the GT&C of Canyon's Tariff to reflect a change in Canyon's Internet website address.

Canyon requests any waivers of the Commission's Regulations to the extent necessary to permit the tendered tariff sheets to become effective May 1, 2000.

Canyon states that copies of the filing have been mailed to Trailblazer's customers and interested state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, in accordance with Sections 285.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).
