

Background

On August 26, 2011, the U.S. Department of Commerce (Department) published a notice of initiation of administrative review of the countervailing duty order on certain pasta from Italy, covering the period January 1, 2010, through December 31, 2010. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 76 FR 53404 (August 26, 2011). The preliminary results of this administrative review are currently due no later than April 1, 2012.¹

Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue the preliminary results of an administrative review within 245 days after the last day of the anniversary month of a countervailing duty order for which a review is requested and issue the final results within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend these deadlines to a maximum of 365 days and 180 days, respectively. *See also* 19 CFR 351.213(h).

Extension of Time Limit for Preliminary Results

Because the Department will require additional time to review and analyze submitted information from the Government of Italy and the respondent company, Molino e Pastificio Tomasello, S.p.A., and to issue supplemental questionnaires, it is not practicable to complete the preliminary results of this review within the original time limit. Therefore, the Department is extending the time limit for completion of the preliminary results by 120 days. The preliminary results will now be due no later than July 30, 2012.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: March 9, 2012.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

In response, NIST published regulations entitled "Guidance on Federal Conformity Assessment Activities" in August 2000 (15 CFR part 287). The regulations outline Federal agencies' responsibility for evaluating the efficiency and effectiveness of their conformity assessment activities and are

intended to help Federal agencies improve the management and coordination of their own conformity assessment activities in support of their regulatory, procurement and other mission objectives.

Discussions at the workshop will inform NIST conformity assessment guidance to Federal agencies. The conference will include presentations from key government officials, regulators, and industry and conformity assessment experts. Time will be allotted for participant input and discussions.
