BILLING CODE 4410-11-P

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Information Collection Activities; Comment Request

AGENCY: Bureau of Labor Statistics, Department of Labor.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the "Report on Occupational Employment and Wages." A copy of the proposed information collection request can be obtained by contacting the individual

listed below in the Addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the Addresses section of this notice on or before January 9, 2023.

ADDRESSES: Send comments to Carol Rowan, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room G225, 2 Massachusetts Avenue NE, Washington, DC 20212. Written comments also may be transmitted by email to BLS_PRA_Public@bls.gov.

FOR FURTHER INFORMATION CONTACT: Carol Rowan, BLS Clearance Officer, at 202-691-7628 (this is not a toll free number). (See **ADDRESSES** section.)

SUPPLEMENTARY INFORMATION:

I. Background

The Occupational Employment and Wage Statistics (OEWS) survey is a Federal/State establishment survey of wage and salary workers designed to produce data on current detailed occupational employment and wages for each Metropolitan Statistical Area and Metropolitan Division as well as by detailed industry classification. OEWS survey data assist in the development of employment and training programs established by the Perkins Vocational Education Act and the Wagner-Peyser Act.

The OEWS program operates a periodic mail survey of a sample of non-farm establishments conducted by all fifty States, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands. Over three-year periods, data on occupational employment and wages are collected by industry at the four- and five-digit North American Industry Classification System (NAICS) levels. The Department of Labor uses OES data in the administration of the Foreign Labor Certification process under the Immigration Act of 1990.

II. Current Action

Office of Management and Budget clearance is being sought for the OEWS program. Occupational employment data obtained by the OEWS survey are used to develop information regarding current and projected employment needs and job opportunities. These data assist in the development of State vocational education plans. OEWS wage data provide a significant source of information to support a number of different Federal, State, and local efforts.

With the release of the May 2021 OEWS estimates in March 2022, the OEWS program implemented a new model-based estimation methodology

(MB3). The MB3 methodology uses modeling to predict the staffing pattern and wages for every non-observed establishment on the OEWS population frame using observed OEWS survey response data along with current data from the Quarterly Census of Employment and Wages program. This differs from the older design-based methodology that used weighting and imputation to make the OEWS response data represent the OEWS population frame. Research and testing indicated the accuracy and reliability of the MB3 estimates improved over the former approach.

As part of an ongoing effort to reduce respondent burden, OEWS has several electronic submission options which are available to respondents. Respondents have the ability to submit data by email, or fillable online forms. In many cases, a respondent can submit existing payroll records and would not need to submit a survey form.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Title of Collection: Report on Occupational Employment and Wages.
OMB Number: 1220-0042.

Type of Review: Revision of a currently approved collection.

Affected Public: Business or other for-profit, Not-for-profit institutions, Federal Government, State, Local, or Tribal Government.

Total Respondents: 255,965.

Frequency: Semi-annually.

Total Responses: 255,965.

Average Time per Response: 30 minutes.

Estimated Total Burden Hours: 127,982.

Total Burden Cost (capital/startup): \$00.00.

Total Burden Cost (operating/maintenance): \$00.00.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, on November 2, 2022.

Eric Molina,

Acting Chief, Division of Management Systems.

BILLING CODE 4510-24-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2010-0037]

Standard for Welding, Cutting, and Brazing; Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comments.

SUMMARY: OSHA solicits public comments concerning the proposal to extend the Office of Management and Budget's (OMB) approval of the information collection requirements specified in the Standard for Welding, Cutting, and Brazing.

DATES: Comments must be submitted (postmarked, sent, or received) by January 9, 2023.

ADDRESSES:

Electronically: You may submit comments and attachments electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Docket: To read or download comments or other material in the docket, go to <http://www.regulations.gov>. Documents in the docket are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the website. All submissions, including copyrighted material, are available for inspection through the OSHA Docket Office. Contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627 for assistance in locating docket submissions.

Instructions: All submissions must include the agency name and OSHA docket number (OSHA-2010-0037) for the Information Collection Request (ICR). OSHA will place all comments, including any personal information, in the public docket, which may be made available online. Therefore, OSHA cautions interested parties about submitting personal information such as social security numbers and birthdates. For further information on submitting comments, see the "Public Participation" heading in the section of this notice titled **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

Seleda Perryman or Theda Kenney, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor; telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The purpose of these requirements is to reduce employees' risk of death or serious injury by ensuring that employment has been tested and is in safe operating condition.

Section 1910.255(e) requires that a periodic inspection of resistance welding equipment be made by

qualified maintenance personnel, and that a certification record be generated and maintained. The certification shall include the date of the inspection, the signature of the person who performed the inspection and the serial number, or other identifier, for the equipment inspected. The record shall be made available to an OSHA inspector upon request. The maintenance inspection ensures that welding equipment is in safe operating condition while the maintenance record provides evidence to workers and agency compliance officers that employers performed the required inspections.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection, and transmission techniques.

III. Proposed Actions

The agency requests an adjustment decrease of 187 burden hours (from 5,806 burden hours to 5,619 burden hours) associated with the collections of information in the Welding, Cutting, and Brazing Standard. This adjustment decrease is a result of a decrease in the number of welders, cutters, solders, and brazers in general industry from 21,770 to 21,070 a difference of 700 welders, cutter, solders, and brazers in the previous package. The agency will summarize any comments submitted in response to this notice and will include this summary in its request to OMB.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Extension of a currently approved collection.

Title: The Standard for Welding, Cutting, and Brazing (29 CFR part 1910, subpart Q).

OMB Control Number: 1218-0207.

Affected Public: Business or other for-profits.
