Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Marine Site Characterization Surveys; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; correction.

SUMMARY: On October 8, 2020, a notice was published in the **Federal Register** announcing the issuance of an incidental harassment authorization (IHA) for take of marine mammals incidental to marine site characterization surveys in coastal waters from New York to Massachusetts. That document inadvertently omitted NMFS' response to a recommendation from the Marine Mammal Commission, and contained a grammatical error. This document corrects these errors; all other information is unchanged.

FOR FURTHER INFORMATION CONTACT: Carter Esch, Office of Protected Resources, NMFS, (301) 427–8421.

SUPPLEMENTARY INFORMATION:

Background

NMFS published a notice in the **Federal Register** on October 8, 2020 (85 FR 65308) announcing that an IHA had been issued to Ørsted Wind Power North America, LLC, authorizing the take of marine mammals incidental to marine site characterization surveys in coastal waters from New York to Massachusetts, effective for one year from the date of issuance. NMFS refers the reader to the October 8, 2020, **Federal Register** notice (85 FR 65308) for background information concerning the IHA. The information in the notice of issuance is not repeated here. As published, the notice of issuance contains errors which are corrected here.

Correction

1. In FR Doc. 2020–22307, on page 63509 in the second column, the

response to *Comment 1* is corrected to read as follows:

Comment 1: The Commission assesses that “it is reasonable to conclude that incidental taking of marine mammals could occur” as a result of Ørsted’s specified activity, while asserting that the size of the Level B harassment zones is overestimated. Given this, the Commission states that the required mitigation (e.g., implementation of shutdown upon observation of marine mammals within defined zones) would “minimize” the potential for marine mammal takes to occur and, as a result, states its belief that issuance of an IHA for the proposed activities is unnecessary.

Response: NMFS appreciates the Commission’s consideration of the proposed IHA and will consider the Commission’s position in the future, should further take authorization requests be received for similar activities. As it relates to this activity, Ørsted has requested the authorization of take and NMFS has acted on that request, as required by the MMPA. As the Commission notes, it is reasonable to conclude that incidental taking could occur and, while NMFS shares the opinion that the prescribed mitigation may be effective in avoiding take for these activities, we have evaluated and authorized the take that could occur as precautionarily requested by Ørsted. As described herein, NMFS has issued the requested IHA to Ørsted.

2. On page 63517 in the third column, the final sentence is corrected to read as follows:

As described above, NMFS has determined that the likelihood of take of any marine mammals in the form of Level A harassment occurring as a result of the surveys is so low as to be discountable; therefore, we do not authorize take of any marine mammals by Level A harassment.

Dated: November 3, 2020.

Donna Wieting,

Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Processed Products Family of Forms

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. Public comments were previously requested via the **Federal Register** on June 24th, 2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: Processed Products Family of Forms.

OMB Control Number: 0648–0018.

Form Number(s): NOAA Forms 88–13, 88–13C.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 398.

Average Hours per Response: 15 minutes, Monthly Meat and Oil Report; 30 minutes, Annual Survey of Seafood Processors.

Total Annual Burden Hours: 178.

Needs and Uses: This is a survey of seafood and industrial fish processing firms. Firms processing fish from certain fisheries must report on their annual volume, the wholesale value of products, and monthly employment figures. Data are used in economic analyses to estimate the capacity and extent to which processors utilize domestic harvest. These analyses are necessary to carry out the provision of the Magnuson-Stevens Fishery Conservation and Management Act.

Affected Public: Business or other for-profit organizations.

Frequency: Form 88–13–Annual; Form 88–13C–Monthly.

Respondent’s Obligation: Mandatory for some Federal Permit holders in the Northeast, otherwise voluntary.
