

DEPARTMENT OF LABOR**Employment Standards Administration****Proposed Collection; Comment Request****ACTION:** Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment Standards Administration is soliciting comments concerning the proposed collection The Remedial Education Provisions of the Fair Labor Standards Act. A copy of the proposed information collection request can be obtained by contacting the office listed below in the addresses section of this Notice.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before February 14, 2003.

ADDRESSES: Ms. Patricia A. Forkel, U.S. Department of Labor, 200 Constitution Ave., NW., Room S-3201, Washington, DC 20210, telephone (202) 693-0339, fax (202) 693-1451, e-mail pforkel@fenix2.dol-esa.gov. Please use only one method of transmission for comments (mail, fax, or e-mail).

SUPPLEMENTARY INFORMATION:**I. Background**

Under the Fair Labor Standards Act (FLSA), employees who lack a high school diploma or whose reading level or basic skills are at or below the eighth grade level, may be required by their employers to attend up to 10 hours per week of remedial education. Employees who are subject to the overtime provisions of the FLSA ordinarily must be paid one and one-half times their regular rate of pay for all hours worked over 40 in each workweek. The additional hours devoted to such remedial education would not have to be compensated at the same time and one-half overtime rate; however, employees must receive compensation

at their regular rate of pay for time spent receiving such remedial education. Employers wishing to utilize the partial overtime exemption for such employees must record the hours of employees spent in remedial education. This information collection is currently approved for use through June 30, 2003.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-261]

Carolina Power & Light Company; H. B. Robinson Steam Electric Plant, Unit No. 2; Exemption

1.0 Background

Carolina Power & Light Company
(CP&L) is the holder of Facility
Operating License No. DPR-23, which
authorizes operation of the H. B.
Robinson Steam Electric Plant, Unit No.
2 (HBRSEP2). The license provides,
among other things, that the facility is
subject to all rules, regulations, and
orders of the U.S. Nuclear Regulatory

Commission (NRC, the Commission)
now or hereafter in effect.

The facility consists of a pressurized-
water reactor located in Darlington
County, South Carolina.

2.0 Request/Action

Pursuant to 10 CFR 55.59(c), a
facility's licensed operator
requalification program must be
conducted for a continuous period not
to exceed 2 years (24 months) and upon
conclusion must be promptly followed,
pursuant to a continuous schedule, by
successive requalification programs.
Each 2-year requalification program
must include a comprehensive biennial
written examination and annual
operating tests.

By letter dated October 11, 2002,
CP&L requested a one-time exemption
from the schedular requirements of 10
CFR 55.59(c). Specifically, for
HBRSEP2, CP&L has requested a one-
time extension from December 31, 2002,
to March 31, 2003, for completing the
licensed operator requalification annual
operating test and comprehensive
biennial written examination. This
requested exemption would allow an
extension of 3 months beyond the
schedule for completion of the operating
test and written examination as required
by 10 CFR 55.59(c). CP&L's letter
constitutes a request for exemption
under 10 CFR 55.11, which states: "The
Commission may, upon application by
an interested person, or upon its own
initiative, grant such exemptions from
the requirements of the regulations in
this part as it determines are authorized
by law and will not endanger life or
property and are otherwise in the public
interest." The exemption is being
requested for HBRSEP2 due to an
unusually high workload associated
with a plant refueling outage (RFO21)
and a power uprate project, which
occurred just prior to the originally
scheduled examinations. Due to the
refueling outage and power uprate
activities, which included modifying
the plant-specific simulator and
extensive training of personnel on new
and modified procedures, development
and administration of the written
examination and operating test within
the required schedule is viewed as a
schedule and workload hardship by the
licensee.

3.0 Discussion

Pursuant to 10 CFR 55.11, the
Commission may, upon application by
an interested person, or upon its own
initiative, grant such exemptions from
the requirements of the regulations in
this part as it determines are authorized
by law and will not endanger life or
