DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2008-0020]

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Base (1% annual chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community. This date may be obtained by contacting the office where the maps

are available for inspection as indicated on the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr., Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-3151. **SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Assistant Administrator of the Mitigation Directorate has resolved any appeals resulting from this notification.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60.

Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. This final rule is categorically excluded

from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

General Services Acquisition Regulation; GSAR Case 2006-G512; Rewrite of GSAR Part 509, Contractor Qualifications

AGENCY: Office of the Chief Acquisition Officer, General Services Administration (GSA).

ACTION: Final rule.

SUMMARY: The General Services Administration (GSA) is amending the General Services Administration Acquisition Manual (GSAM) to update the text addressing contractor qualifications. This rule is a result of the General Services Administration Acquisition Manual (GSAM) rewrite initiative undertaken by GSA to revise the GSAM to maintain consistency with the Federal Acquisition Regulation (FAR), and to implement streamlined and innovative acquisition procedures that contractors, offerors, and GSA contracting personnel can use when entering into and administering contractual relationships. The GSAM incorporates the General Services Administration Acquisition Regulation (GSAR) as well as internal agency acquisition policy.

DATES: Effective Date: April 24, 2009.

SUPPLEMENTARY INFORMATION:

A. Background

The GSAR Rewrite Project and Process

On February 15, 2006, GSA published an Advance Notice of Proposed Rulemaking (ANPR) with request for comments on all parts of the GSAM. As a result, two comments were received on Part 509. These are addressed below. In addition, internal review comments have been incorporated as appropriate. A proposed rule for the regulatory portion of the GSAM was published in the **Federal Register** at 73 FR 36013, June 25, 2008. In addition, GSA Acquisition Letter V-08-06, entitled "Changes to Procedures for Conducting Fact-Finding in a Debarment/Suspension Case Under GSAM Subpart 509.4," dated June 20, 2008, was incorporated into Subpart 509.4 (see below). The public comment period for GSAR Part 509 closed on August 25, 2008, and six comments were received from five commenters.

The Rewrite of Part 509

This final rule contains the revisions made to Part 509, Contractor Qualifications. GSA Form 353, Performance Evaluation and Facilities Report, is deleted so that similar FAR forms will be used instead. Subpart 509.2, subsection 509.405-1(b), and clauses 552.209-70 through 552.209-73 are deleted because they are deemed unnecessary. The explanation of "auditor" in 509.105-1 is removed because it is partly duplicative (credit and finance) and too restrictive (does not allow use of DCAA). Subsection 509.406-3(b)(7) is deleted as duplicative of 509.406-3(b)(5). The debarment legal authorities in 509.401 are updated. The term "Suspension and Debarment Official" is used consistently throughout the Part. Subparagraph 509.406-3(d) was rewritten to incorporate the procedures for conducting fact finding in a debarment or suspension case from GSA Acquisition Letter V-08-06, dated June 20, 2008.

Discussion of Comments

A proposed rule was published in the **Federal Register** at 73 FR 36013, June 25, 2008. The comment period closed August 25, 2008, and six comments were received from five commenters. Also, GSA Acquisition Letter V-08-06, published on June 20, 2008, was incorporated in the final rule.

1. No new guidelines on teaming.

Comment: Four commenters wrote in support of the revisions to GSAR Part 509 and to advocate not creating new guidelines that would make it more difficult for small businesses to work as teams.

Response: Concur. There are no plans to create new guidelines for teaming.

2. Revise rules for GSA Form 527 so as not to make it a last resort for contracting officers.

Comment: The GSA Form 527, Contractor Qualifications and Financial Information, was retained, but associated text was modified to authorize its use "only after exhausting other available sources of information." While acknowledging that the GSA Form 527 is lengthy, the commenter does not think that making the preaward process longer by having contracting officers research all other sources of information prior to seeking needed information from the contractor is helpful to either party. The commenter said he would not be entirely comfortable making a responsibility determination based only on information external to the offeror, without providing the offeror an opportunity to tell its own story about qualifications and abilities.

Response: Nonconcur. FAR 9.105 includes the standards and procedures for requesting and obtaining information sufficient to determine the responsibility of a prospective contractor, *i.e.*, that an offeror meets the standards at FAR 9.104. A careful reading of FAR 9.105-1 nets a long list of potential sources for objective information, none of which are the offeror itself. While there is nothing wrong with obtaining information directly from an offeror, the offeror itself should not be the first, or the only, source of information for making a responsibility determination. GSA acquisition personnel should make greater use of the information sources listed in the FAR, and appropriate use of such sources would not extend the length of time needed to make a responsibility determination.

3. Consider eliminating GSA Form 527.

Comment: A commenter proposed to eliminate GSA Form 527, as long as GSA Finance will continue to perform financial reviews without it. Rather than using a lengthy form, the commenter said, perhaps a brief GSAR solicitation provision could be written detailing the type of information an offeror may be requested to provide to support a responsibility determination.

Response: Nonconcur. While this is a good concept, made in the spirit of eliminating unnecessary agency-level supplementation of the FAR, the GSA Office of Finance, at this time, will not agree to perform financial reviews without it.

4. GSA Acquisition letter V-08-06, entitled "Changes to Procedures for
