

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Health Resources and Services Administration****Agency Information Collection Activities: Submission to OMB for Review and Approval; Public Comment Request**

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice.

SUMMARY: In compliance with Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the Health Resources and Services Administration (HRSA) has submitted an Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and approval. Comments submitted during the first public review of this ICR will be provided to OMB. OMB will accept further comments from the public during the review and approval period.

DATES: Comments on this ICR should be received within 30 days of this notice.

ADDRESSES: Submit your comments, including the Information Collection Request Title, to the desk officer for HRSA, either by email to OIRA_submission@omb.eop.gov or by fax to 202-395-5806.

FOR FURTHER INFORMATION CONTACT: To request a copy of the clearance requests

submitted to OMB for review, email the HRSA Information Collection Clearance Officer at paperwork@hrsa.gov or call (301) 443-1984.

SUPPLEMENTARY INFORMATION:

Information Collection Request Title: Data Collection Tool for State Offices of Rural Health Grant Program (SORH).

OMB No. 0915-0322—Extension.

Abstract: The mission of the Office of Rural Health Policy (ORHP) is to sustain and improve access to quality care services for rural communities. In its authorizing language (Sec. 711 of the Social Security Act [42 U.S.C. 912]), Congress charged ORHP with administering grants, cooperative agreements, and contracts to provide technical assistance and other activities as necessary to support activities related to improving health care in rural areas.

In accordance with the Public Health Service Act, Section 338J; 42 U.S.C. 254r, the Health Resources and Services Administration proposes to revise the State Offices of Rural Health Grant Program—Funding Opportunity Announcement (FOA) and Forms for the Application. The FOA is used annually by 50 states in preparing applications for grants under the State Offices of Rural Health Grant Program of the Public Health Service Act, and in preparing the required report.

Need and Proposed Use of the Information: ORHP seeks to continue gathering information from grantees on their efforts to provide technical

assistance to clients within their state. SORH grantees would be required to submit a Technical Assistance Report that includes: (1) The total number of technical assistance encounters provided directly by the grantee; and, (2) the total number of unduplicated clients that received direct technical assistance from the grantee. Submission of the Technical Assistance Report would be done via submission to the HRSA Electronic Handbook no later than 30 days after the end of each twelve month budget period.

Likely Respondents: Fifty State Offices of Rural Health grantees.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information. The total annual burden hours estimated for this Information Collection Request are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Technical Assistance Report	50	1	50	12.5	625
Total	50	1	50	12.5	625

Dated: July 2, 2013.

Bahar Niakan,

Director, Division of Policy and Information Coordination.

SUPPLEMENTARY INFORMATION:

Information Collection Request Title: Survey of Eligible Users of the National Practitioner Data Bank.

OMB No. 0915-xxxx—New.

Abstract: The Health Resources and Services Administration (HRSA) plans to conduct a survey of eligible users of the National Practitioner Data Bank (NPDB). The respondent universe is comprised of both users and non-users that are eligible to report to the NPDB, query the NPDB, or both, between January 1, 2010, and December 31, 2012. The survey aims to assess the overall satisfaction of NPDB users with regard to reporting and querying processes. Additionally, the survey will evaluate the effectiveness of the NPDB as an information source and measure user perception of the utility of NPDB information when hiring, licensing, credentialing, and monitoring health care practitioners. The survey will also collect information from eligible non-users of the NPDB to assess what can be done to motivate eligible non-users to register, access, and use the information available in the NPDB.

The survey will be administered to three populations of interest: Eligible users, eligible non-users, and self-queriers. First, eligible users of the NPDB include entities who queried the NPDB, reported to the NPDB, or both, during the defined time frame. Entities that used an authorized agent to fulfill their reporting or querying requirements will be considered eligible users. Second, eligible non-users of the NPDB are those that: (i) Never registered with the NPDB; (ii) registered prior to 2010 and were not currently registered during the survey time frame; and (iii) were registered but not using the NPDB directly or through an authorized agent. Third, those that self-query the NPDB include health care practitioners that submitted a query during the specified time frame to either verify their own status or to provide a copy of the results to a third party. The majority of self-queriers are health care practitioners; however, this population can include medical service providers and medical suppliers.

Eligible NPDB users and eligible non-users who were previously registered or were currently registered but not using the NPDB will be asked to complete a web-based survey. Eligible non-users that were never registered with the NPDB will be contacted via telephone to obtain email information so that they

will be able to complete a web-based survey. The survey will collect additional information from users that receive a matched response. A matched response occurs when an eligible user queries the NPDB and, in turn, receives a response that the subject of the query has a report in the NPDB. This survey is a follow-up to the NPDB users and non-users survey of 2008. Data gathered from the survey will be compared with previous surveys results. This survey will provide HRSA with the information necessary to improve the usability and effectiveness of the NPDB.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Respondents type	Respondents description	Number of respondents	Number of responses per respondent	Total responses	Hours per response	Total burden (hours)
NPDB Users	Reporters Queriers (non-matched responses).	11,832	1	11,832	.333	3,940
	Queriers (matched responses).	1,768	1	1,768	.383	677
Non-Users	Ever registered	1,200	1	1,200	.133	160
	Never-registered	400	1	400	.10	40
NPDB Self Queriers	Non-matched responses	1,080	1	1,080	.10	108
	Matched	120	1	120	.216	26
Total	16,400	16,400	4,951

Dated: July 3, 2013.
