

comments for a period of 30 days. See **Solicitation of Public Comment on Request for Textile and Apparel Safeguard Action on Imports from China**, 70 FR 23100 (Category 340/640), 23130 (Category 638/639) & 23136 (Category 647/48) (May 4, 2005).

On May 18, 2005, the Committee announced its determination that imports of Chinese origin men's and boys' cotton and man-made fiber shirts, not knit, man-made fiber knit shirts and blouses, and man-made fiber trousers, slacks and shorts are, due to a threat of market disruption, threatening to impede the orderly development of trade in these products. See **Announcement of Request for Bilateral Textile Consultations with the Government of the People's Republic of China and the Establishment of Import Limits for Certain Cotton and Man-Made Fiber Textiles and Textile Products in Categories 301, 340/640, 638/639, and 647/648, Produced or Manufactured in the People's Republic of China**, 70 FR 30930 (May 31, 2005).

The Committee's Procedures (68 FR 27787, May 21, 2003) state that the Committee will make a determination within 60 calendar days of the close of the public comment period as to whether the United States will request consultations with China with a view to easing or avoiding market disruption. This 60-day period for the three market disruption cases expired on August 2, 2005. Based on the threat of market disruption, however, the Committee has already requested consultations with China with respect to the categories of products covered by these three cases. See **Announcement of Request for Bilateral Textile Consultations with the Government of the People's Republic of China and the Establishment of Import Limits for Certain Cotton and Man-Made Fiber Textiles and Textile Products in Categories 301, 340/640, 638/639, and 647/648, Produced or Manufactured in the People's Republic of China**, 70 FR 30930 (May 31, 2005). Thus, there is no need for any further action based on allegations of actual market disruption at this time as to these categories.
