NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-272 AND 50-311]

PSEG Nuclear, LLC; Salem Nuclear Generating Station, Unit Nos. 1 and 2; Environmental Assessment and Finding of No Significant Impact

The Nuclear Regulatory Commission (NRC) is considering the issuance of amendments to Facility Operating License Nos. DPR-70 and DPR-75, issued to PSEG Nuclear, LLC (the licensee), for operation of the Salem Nuclear Generating Station (Salem), Unit Nos. 1 and 2, located in Salem County, New Jersey. Therefore, as required by Title 10 of the Code of Federal Regulations (10 CFR) section 51.21, the NRC is issuing this environmental assessment and finding of no significant impact.

Environmental Assessment

Identification of the Proposed Action

The proposed action would allow the licensee to make various administrative and editorial changes to the Salem Technical Specifications (TSs) in accordance with the licensee's application dated January 29, 2003.

The Need for the Proposed Action

The proposed action would correct administrative and editorial errors to the Salem TSs.

Environmental Impacts of the Proposed Action

The NRC has completed its evaluation of the proposed action and concludes, as set forth below, that there are no significant environmental impacts associated with the administrative and editorial changes to the Salem TSs.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types of effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not have a potential to affect

any historic sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

The action does not involve the use of any different resource than those previously considered in the Final Environmental Statement related to operation of Salem Nuclear Generating Station, Units 1 and 2, dated April 1973.

Agencies and Persons Consulted

On March 26, 2003, the staff consulted with the New Jersey State official, Mr. Dennis Zannoni of the New Jersey Department of Environmental Protection, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated January 29, 2003. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR reference staff by telephone at 1-800-

397-4209 or 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 17th day of April, 2003.

For the Nuclear Regulatory Commission.

James W. Clifford,

*Chief, Section 2, Project Directorate I, Division
 of Licensing Project Management, Office of
 Nuclear Reactor Regulation.*

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

Issuer Delisting; Notice of Application of Surge Components, Inc. To Withdraw Its Common Stock, \$.001 Par Value, and Purchase Warrants, \$.001 Par Value, From Listing and Registration on the Boston Stock Exchange, Inc. File No. 1-14188

April 21, 2003.

Surge Components, Inc., a New York corporation ("Issuer"), has filed an application with the Securities and Exchange Commission ("Commission"), pursuant to section 12(d) of the Securities Exchange Act of 1934 ("Act")¹ and rule 12d2-2(d) thereunder,² to withdraw its common stock, \$.001 par value, and purchase warrants, \$.001 par value ("Securities"), from listing and registration on the Boston Stock Exchange, Inc. ("BSE" or "Exchange").

On February 11, 2003, the Board of Directors of the Issuer approved a resolution to withdraw the Securities from listing and registration on the BSE. The Issuer states that the following reasons factored into the Board's decision to withdraw the Securities: the trading volume for the Securities is very low and the Issuer cannot maintain the minimum public float requirements of the BSE. The Issuer states that its common stock is currently traded on the Pink Sheets. The Issuer believes the Common Stock will continue to trade on the Pink Sheets.

The Issuer states in its application that it has complied with BSE procedures for delisting by complying with all applicable laws in effect in the State of New York, the State in which it is incorporated. The Issuer's application relates solely to the Securities' withdrawal from listing on the BSE and from registration under section 12(b) of the Act³ and shall not
