

Director, identify appointment nominees who can address the Committee's needs pursuant to EISA. Subcommittee membership is drawn from that of the full Committee and thus reflects much of the balance described previously. Additionally, technical experts may be appointed to the subcommittee in order to provide additional expertise and fulfill any lacking points of view relative to the subcommittee's mission/function.

Members must be able to actively participate in the tasks of the Committee including, but not limited to, attending, and participating in in-person meetings, reviewing materials, and regularly participating in conference calls, working groups, and formal subcommittees. The Secretary will consider nominees who can best support, in an advisory capacity.

Members of the Committee serve without compensation; however, members may be reimbursed in accordance with the Federal Travel Regulations for authorized travel and per diem expenses.

Nominations are open to all individuals without regard to race, color, religion, sex, national origin, age, mental or physical handicap, marital status, or sexual orientation. Members will be selected based on their individual qualifications as detailed in their nomination package, as well as the overall need to achieve a balanced representation of viewpoints, subject matter expertise, and regional knowledge.

The Secretary will, in consultation with the Director, consider nominations of all qualified individuals to ensure that the Committee includes the areas of experience noted previously.

Individuals may nominate themselves or other individuals, and professional associations and organizations may nominate one or more qualified persons for consideration. Nominations shall state that the nominee is willing to serve as a member and carry out the duties of the Committee. A nomination package should include the following information for each nominee: A letter of nomination (1) stating the name, affiliation, position title, and contact information for the nominee (mailing address, email address, and daytime telephone number); (2) the basis for the nomination (*i.e.*, what specific attributes recommend them for service in this capacity), and (3) the nominee's field(s) of experience within the focus areas listed in section 454(c) of the EISA, as codified at 42 U.S.C. 17113(c), and (4) the name, mailing address, email address, and daytime telephone number at which the nominator can be

contacted. A nomination package should provide an adequate description of the nominee's qualifications, including information that will enable DOE to make an informed decision regarding meeting the membership requirements and objectives.

All nomination information should be provided in a single, complete package by June 13, 2025. Interested applicants should send their nomination package to ITIAC@ee.doe.gov with the subject line "ITIAC 2025 Call for Nominations". Respondents to previous calls for nominations are encouraged to submit updated nomination packages as appropriate.
