

applicable statutes and regulations include special hiring authorities, upon completion of certain requirements. This information collection request will enable participating agencies to capture required and other information that will aid in workforce development and job training for young people, returning veterans, and others who are unemployed or underemployed, and to monitor compliance with statutory laws and associated hiring authorities. A primary, but not exclusionary, authorizing source for the information collection is 16 U.S.C. 1702–1727, chapter 37—Youth Conservation Corps, Public Lands Corps, Resource Assistants Program, and Indian Youth Service Corps. The Public Lands Corps is a work and education program involving the Nation's land management agencies, conservation and service corps, and environmental organizations that contribute to the rehabilitation, restoration, and repair of public land resources and infrastructures. Public Lands Corps projects provide opportunities for community and national public service, work experience and training for young people who are unemployed or underemployed, students, recent graduates, and others with an interest in natural and cultural resources careers.

The Workforce Development Participant Tracking form supports effective management of the Public Lands Corps and other workforce development programs hosted in partnership with public land management agencies. Utilization of a common form will contribute to the following: assist Federal agencies to uniformly collect information regarding work accomplished; track and monitor participant engagement to determine the completion of requirements for noncompetitive hiring eligibility as defined in the Public Lands Corps Act; comply with statutory reporting requirements; inform effective outreach; and provide data about project activities that can be aggregated across Federal agencies.

Information collected, such as participant demographic information and project information, will allow the Forest Service, National Park Service, Bureau of Land Management, Fish and Wildlife Service, and other agencies to monitor the effectiveness of Federal efforts to meet the intent of the authorizing statutes. This information collection request will ensure that partners maintain a record of all workforce development agreements, grants and contracts established, participant demographics and education, project information and work

hours, project locations and dates, and status of special hiring eligibilities conferred upon eligible participants.
