Good Conduct Time Credit Under the First Step Act

AGENCY: Bureau of Prisons, Justice.

ACTION: Final rule.

SUMMARY: The Bureau of Prisons (Bureau or BOP) modifies regulations on Good Conduct Time (GCT) credit to conform with legislative changes under the First Step Act (FSA). The changes made by the FSA to the process for awarding GCT credit have resulted in recalculation of the release date of most inmates. This final rule adopts the same calculation method set forth in the proposed rule published on this subject, and finalizes that proposed rule with the following minor change(s) described below.

DATES: This rule is effective March 14, 2022.

FOR FURTHER INFORMATION CONTACT: Sarah N. Qureshi, Rules Administrator, Office of General Counsel, Bureau of Prisons, phone (202) 353-8248.

SUPPLEMENTARY INFORMATION:

I. Overview

In this document, the Bureau modifies regulations on GCT credit to conform with changes made in the First Step Act of 2018 (FSA), Public Law 115-391, December 21, 2018, 132 Stat 5194. The Bureau published a proposed rule on this subject on December 31, 2019 (84 FR 72274) with a comment deadline of

March 2, 2020. Seventy-four comments were received during the comment period. Six of those 74 comments supported the proposed rule without qualification. The remaining 68 comments raised some common issues, which we address below.

II. Background.

Section 102(b) of the FSA amended 18 U.S.C. 3624(b) to provide that inmates may receive up to 54 days of GCT credit for each year of the sentence imposed by the court, instead of for each year of actual time served. *See* 18 U.S.C. 3624(b)(1) (“[A] prisoner who is serving a term of imprisonment of more than 1 year other than a term of imprisonment for the duration of the prisoner’s life, may receive credit toward the service of the prisoner’s sentence of up to 54 days for each year of the prisoner’s sentence imposed by the court . . .”). As a practical matter, prior to this change, awarding GCT credit for each year of actual time served had routinely resulted in a de facto cap of roughly 47 days per year of GCT credit. *See Barber v. Thomas*, 560 U.S. 474, 479 (2010). This final rule supports the FSA’s modification of the GCT credit determination, which will result in recalculation of the release date of most current inmates (with the exception of those serving sentences for offenses committed before November 1, 1987, sentences of one year or less, and sentences of life imprisonment).

Under section 102(b)(2) of the FSA, this change to the manner in which GCT credit is applied could not be made effective until the Attorney General completed and released a recidivism risk and needs assessment system, which was done on July 19, 2019. A total of 3,163 inmates were released from Bureau custody on July 19, 2019, after the Bureau recalculated release dates under the amended GCT credit scheme in the FSA.

The Bureau has completed the process of recalculations for the remainder of the inmate population, prioritizing recalculations by proximity of projected release dates, and releasing inmates as appropriate. This rule

focuses primarily on the proper calculation of GCT credit for the last chronological year of an inmate’s term of imprisonment, implementing the statutory instruction that “credit for the last year of a term of imprisonment shall be credited on the first day of the last year of the term of imprisonment.” 18 U.S.C. 3624(b)(1). The Bureau has applied this calculation method since July 19, 2019, and the calculation method is the same one set forth in the Bureau’s proposed rule.

III. Discussion of Comments and BOP’s Responses

Comment: The Bureau should choose the second alternative described in the proposed rule instead of the third alternative proposed by the Bureau. Sixty-four commenters urged the Bureau to adopt “Alternative 2,” the alternative interpretation of the FSA described in the proposed rule that would offer “the most Good Conduct Time credit possible.” To explain Alternative 2, we first provide some brief background.

Previously, 18 U.S.C. 3624(b)(1) provided that inmates “may receive credit toward the service of the prisoner’s sentence beyond the time served, of up to 54 days at the end of each year of the prisoner’s term of imprisonment, beginning at the end of the first year of the term.” The statute then specified that “credit for the last year or portion of a year of the term of imprisonment shall be prorated and credited within the last six weeks of the sentence.”

Section 102(b)(1) of the FSA, however, amended 18 U.S.C. 3624(b)(1) to require that inmates serving a sentence (other than a life sentence) of more than a year receive GCT credit of “up to 54 days for each year of the prisoner’s sentence imposed by the court”—as opposed to for “time served”—and that GCT “credit for the last year of a term of imprisonment . . . be credited on the first day of the last year of the term of imprisonment.”

In the proposed rule, the Bureau discussed three possible interpretations of the FSA’s changes to 18 U.S.C. 3624(b)(1):
