

(ii) From subsections (d)(1) through (d)(4), and (f) because providing access to records of a civil or administrative investigation and the right to contest the contents of those records and force changes to be made to the information contained therein would seriously interfere with and thwart the orderly and unbiased conduct of the investigation and impede case preparation. Providing access rights normally afforded under the Privacy Act would provide the subject with valuable information that would allow interference with or compromise of witnesses or render witnesses reluctant to cooperate; lead to suppression, alteration, or destruction of evidence; enable individuals to conceal their wrongdoing or mislead the course of the investigation; and result in the secreting of or other disposition of assets that would make them difficult or impossible to reach in order to satisfy any Government claim growing out of the investigation or proceeding.

(iii) From subsection (e)(1) because it is not always possible to detect the relevance or necessity of each piece of information in the early stages of an investigation. In some cases, it is only after the information is evaluated in light of other evidence that its relevance and necessity will be clear.

(iv) From subsections (e)(4)(G) and (H) because this system of records is compiled for law enforcement purposes and is exempt from the access provisions of subsections (d) and (f).

(v) From subsection (e)(4)(I) because to the extent that this provision is construed to require more detailed disclosure than the broad, generic information currently published in the system notice, an exemption from this provision is necessary to protect the confidentiality of sources of information and to protect privacy and physical safety of witnesses and informants. NRO will, nevertheless, continue to publish such a notice in broad generic terms as is its current practice.

(vi) Consistent with the legislative purpose of the Privacy Act of 1974, the NRO will grant access to nonexempt material in the records being maintained. Disclosure will be governed by NRO's Privacy Regulation, but will be limited to the extent that the identity of confidential sources will not be compromised; subjects of an investigation of an actual or potential criminal violation will not be alerted to the investigation; the physical safety of witnesses, informants and law enforcement personnel will not be endangered, the privacy of third parties will not be violated; and that the disclosure would not otherwise impede

effective law enforcement. Whenever possible, information of the above nature will be deleted from the requested documents and the balance made available. The controlling principle behind this limited access is to allow disclosures except those indicated above. The decisions to release information from these systems will be made on a case-by-case basis.

Dated: December 21, 2000.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Coast Guard

33 CFR Part 117

[CGD01-00-228]

RIN 2115-AE47

Drawbridge Operation Regulations; Mianus River, CT

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to change the drawbridge operating regulations for the Metro-North Bridge, at mile 1.0, across the Mianus River at Greenwich, Connecticut. This proposed rule would require the bridge to open on signal from 9 p.m. to 5 a.m., after an advance notice is given. The bridge presently does not open for vessel traffic between 9 p.m. and 5 a.m., daily. This action is expected to better meet the reasonable needs of navigation.

DATES: Comments must reach the Coast Guard on or before March 9, 2001.

ADDRESSES: You may mail comments to Commander (obr), First Coast Guard District, Bridge Branch, at 408 Atlantic Avenue, Boston, MA. 02110-3350, or deliver them to the same address between 7 a.m. and 3 p.m., Monday through Friday, except Federal holidays. The telephone number is (617) 223-8364. The First Coast Guard District, Bridge Branch, maintains the public docket for this rulemaking. Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, will become part of this docket and will be available for inspection or copying at the First Coast Guard District, Bridge Branch, 7 a.m. to 3 p.m., Monday through Friday, except, Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. John McDonald, Project Officer, First Coast Guard District, (617) 223-8364.

SUPPLEMENTARY INFORMATION:

Request for Comments

We encourage you to participate in this rulemaking by submitting comments or related material. If you do so, please include your name and address, identify the docket number for this rulemaking (CGD01-00-228), indicate the specific section of this document to which each comment applies, and give the reason for each comment. Please submit all comments and related material in an unbound format, no larger than 8½ by 11 inches, suitable for copying. If you would like to know if they reached us, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this proposed rule in view of them.

Public Meeting

We do not now plan to hold a public meeting. But you may submit a request for a meeting by writing to the First Coast Guard District, Bridge Branch, at the address under **ADDRESSES** explaining why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the **Federal Register**.

Background and Purpose

The Metro-North Bridge, mile 1.0, across the Mianus River has a vertical clearance of 20 feet at mean high water and 27 feet at mean low water in the closed position.

The existing operating regulations in 33 CFR 117.209 require the bridge to open on signal from 5 a.m. to 9 p.m., immediately for commercial vessels and as soon as practicable, but no later than 20 minutes after the signal to open is given, for the passage of all other vessel traffic. When a train scheduled to cross the bridge without stopping has passed the Greenwich or Riverside stations and is in motion toward the bridge, the draw shall open as soon as the train has crossed the bridge. From 9 p.m. to 5 a.m., the draw need not be opened for the passage of vessels.

The Coast Guard received a request from a commercial vessel operator requesting a change to the operating regulations for the Metro-North Bridge. The commercial operator requested that the bridge open for vessel traffic during the 9 p.m. to 5 a.m. time period when the bridge is normally closed.

The Coast Guard published a temporary 90 day deviation from the drawbridge operation regulations on April 27, 2000, to provide immediate relief to navigation and to obtain comments from the public concerning this rule. The deviation was in effect from June 7, 2000, through September 4, 2000, during which time, the Metro-North Bridge was required to open on signal, from 9 p.m. to 5 a.m., after a four-hour advance notice was given. No comments were received during the comment period which ended on September 30, 2000. A late comment letter was received from the commercial mariner that requested the rule change. The mariner indicated that his vessel utilized the additional opening time provided by the test deviation and made about 40 transits after 9 p.m. during the test period. The commercial mariner will be adding an additional vessel to his fleet next season which will also require bridge openings after 9 p.m., daily.

The Coast Guard is responsible for the enforcement of the bridge laws and regulations which are intended to prevent any interference with the navigable waters of the United States whether by bridges, dams, dikes or other obstructions to navigation except by express permission of the United States.

The decision as to whether a bridge permit or a drawbridge operation regulation will be issued or promulgated is based upon the effect of the proposed action on navigation to assure that the action provides for the reasonable needs of navigation after full consideration of the effect of the proposed action on the human environment, including the effect on rail and vehicular traffic.

The Coast Guard believes that in the case of the Metro-North Bridge, that changing the bridge operating regulations to require openings between 9 p.m. and 5 a.m. is reasonable because it provides for the needs of navigation, as demonstrated by the demand for bridge openings during the test deviation, and has no effect on rail traffic over the bridge.

Discussion of Proposal

The Coast Guard proposes to revise the operating regulations in 33 CFR 117.209(b) for the Metro-North Bridge by requiring the bridge to open during the 9 p.m. to 5 a.m. time period.

The proposed rule would require the draw to open on signal from April 1 through October 31, from 9 p.m. to 5 a.m., after at least a four-hour advance notice is given and from November 1 through March 30, from 9 p.m. to 5 a.m., after at least a twenty-four hours advance notice is given.

The Coast Guard believes this rule will better meet the reasonable needs of navigation based upon comments received and successful results of the 90-day test deviation.

Regulatory Evaluation

This proposed rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040, Feb. 26, 1979).

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation, under paragraph 10e of the regulatory policies and procedures of DOT, is unnecessary. This conclusion is based on the fact that bridges are required to meet the reasonable needs of navigation at all times and that this bridge will only need to be crewed between the hours of 9 p.m. to 5 a.m., when there is a definite navigational need.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under section 5 U.S.C. 605(b), that this proposed rule would not have a significant economic impact on a substantial number of small entities. This conclusion is based upon the fact that the bridge will now be available to open for all vessel traffic, both small entities and commercial operators, at all times.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Collection of Information

This proposed rule would call for no new collection of information under the

Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

We have analyzed this proposed rule under Executive Order 13132 and have determined that this rule does not have implications for federalism under that Order.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) governs the issuance of Federal regulations that require unfunded mandates. An unfunded mandate is a regulation that requires a State, local, or tribal government or the private sector to incur direct costs without the Federal Government's having first provided the funds to pay those costs. This proposed rule would not impose an unfunded mandate.

Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Environment

We considered the environmental impact of this proposed rule and concluded that, under figure 2–1, paragraph (32)(e), of Commandant Instruction M16475.1C, this proposed rule is categorically excluded from further environmental documentation because promulgation of drawbridge regulations have been found not to have a significant effect on the environment. A "Categorical Exclusion Determination" is available in the docket where indicated under **ADDRESSES**.

List of Subjects in 33 CFR Part 117

Bridges.

Regulations

For the reasons set out in the preamble, the Coast Guard proposes to amend 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05–1(g); section 117.255 also issued under the authority of Pub. Law 102–587, 106 Stat. 5039.

2. Section 117.209(b) is revised to read as follows:

§ 117.209 Mianus River.

* * * * *

(b) The draw shall open on signal from April 1 through October 31, from 9 p.m. to 5 a.m., after at least a four-hour advance notice is given and from November 1 through March 30, from 9 p.m. to 5 a.m., after at least a twenty-four-hour advance notice is given by calling the number posted at the bridge.

Dated: December 6, 2000.

[USCG–2001–8602]

Marine Shipboard Electrical Cable Standards: Incorporation of IEEE Standard 45, 1998 Edition

AGENCY: Coast Guard, DOT.

ACTION: Request for comments.

SUMMARY: The Coast Guard is considering requests to allow merchant vessels to use shipboard cable constructed to meet the requirements in Clause 8 (Cable Construction), Clause 9 (Cable Application), and Clause 10 (Cable Installation) of the Institute of Electrical and Electronics Engineers (IEEE) Standard 45, Recommended Practice for Electrical Installations on Shipboard-1998 edition. The 1998 edition changes the testing requirements for marine shipboard electrical cable from those in the 1983 edition. It also requires third party verification. The Coast Guard requests comments concerning which edition (the 1983 edition, the 1998 edition, or both) should be incorporated by reference.

DATES: Comments and related material must reach the Docket Management Facility on or before March 9, 2001.

ADDRESSES: To make sure your comments and related material are not entered more than once in the docket, please submit them by only one of the following means:

(1) By mail to the Docket Management Facility [USCG–2001–8602], U.S. Department of Transportation, room PL–401, 400 Seventh Street SW., Washington, DC 20590–0001.

(2) By delivery to room PL–401 on the Plaza level of the Nassif Building, 400 Seventh Street SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202–366–9329.

(3) By fax to the Docket Management Facility at 202–493–2251.

(4) Electronically through the Web Site for the Docket Management System at <http://dms.dot.gov>.

The Docket Management Facility maintains the public docket for this notice. Comments and material received from the public will become part of this docket and will be available for inspection or copying at room PL–401 on the Plaza level of the Nassif Building, 400 Seventh Street SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also find this docket on the Internet at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: For questions on this notice, call Dolores Mercier, Project Manager, Office of Design and Engineering Standards (G–MSE), Coast Guard, telephone 202–267–0658, fax 202–267–4816, e-mail dmercier@comdt.uscg.mil. For questions on viewing or submitting material to the docket, call Dorothy Beard, Chief, Dockets, Department of Transportation, phone 202–366–9329.

SUPPLEMENTARY INFORMATION:

Request for Comments

If you submit written comments, please include your name and address, and identify the docket number for this rulemaking [USCG–2001–8602] and the reason for each comment. You may submit your comments and material by mail, delivery, fax, or electronic means to the Docket Management Facility at the address under **ADDRESSES**; but please submit your comments and material by only one means. Please submit all comments and material in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing to the Facility at the address under **ADDRESSES**. If you want acknowledgement of receipt of your

comments, please enclose a stamped, self-addressed postcard or envelope. The Coast Guard will consider all comments and materials received during the comment period.

Background and Purpose

On February 8, 2000, a notice of proposed rulemaking was published in the **Federal Register** (65 FR 6111). In this rulemaking the Coast Guard proposed to amend its electrical engineering regulations for merchant vessels by adding alternative cable standards that were equivalent to the existing standards. IEEE Std 45, 1998 edition was not included in that rulemaking as an alternative standard. In the comment process of that notice we received numerous requests from industry to recognize marine shipboard electrical cable that is constructed to IEEE Std. 45–1998 edition. We presently recognize cable constructed to the IEEE Std. 45–1983 edition. The 1998 edition of IEEE Std. 45 changes the testing requirements for marine shipboard electrical cable, and it also requires third party verification. We recognize that there are types of cable found in IEEE Std. 45–1998, that are not found in IEEE Std. 45–1983.

The Coast Guard seeks comments regarding the following three proposals:

1. The Coast Guard should not recognize IEEE Std. 45–1998 edition.
2. The Coast Guard should recognize IEEE Std. 45–1998 edition and should remove the reference to the 1983 edition.
3. The Coast Guard should recognize IEEE Std. 45–1998 edition and should leave the reference to the 1983 edition.

The Coast Guard encourages the public to submit comments on the above three proposals.

Dated: December 27, 2000.

Joseph J. Angelo,

Director of Standards.
