

maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following section describes who uses the information collected under each requirement, as well as how they use it. The purpose of these requirements is to protect workers from the adverse health effects that may result from occupational exposure to benzene.

The major information collection requirements in the Standard include conducting worker exposure monitoring, notifying workers of the benzene exposure, implementing a written compliance program, implementing medical surveillance for workers, providing examining physicians with the specific information, ensuring that workers receive a copy of their medical surveillance records, and providing access to these records by OSHA, the National Institute for Occupational Safety and Health, the worker who is the subject of the records, the worker's representative, and other designated parties.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Benzene Standard. The agency is requesting an adjustment decrease in burden from 114,598 to 114,146 hours, a difference of 452 hours. The adjustment decrease is due to a decrease in the number of workers exposed above the action level going from 69,742 to 65,499 workers even though the current number of establishments increased. The total number of responses went from 241,371 to 241,005, a decrease of 366. The capital cost for maintenance and operation increased from

\$10,958,889 to \$12,067,635, a difference of \$1,108,746.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Extension of a currently approved collection.

Title: Benzene Standard.

OMB Control Number: 1218–0129.

Affected Public: Business or other for-profits.

Number of Respondents: 12,270.

Number of Responses: 241,005.

Frequency of Responses: On occasion.

Average Time per Response: Varies.

Estimated Total Burden Hours: 114,146.

Estimated Cost (Operation and Maintenance): \$12,067,635.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

- (1) electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal; or
- (2) by facsimile (fax), if your comments, including attachments, are not longer than 10 pages you may fax them to the OSHA Docket Office at (202) 693–1648. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR (Docket No. OSHA–2013–0008). You may supplement electronic submission by uploading document files electronically.

Comments and submissions are posted without change at <https://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <https://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this website. All submission, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <https://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office at (202) 693–2350, (TTY (877) 889–5627) for information about materials not available from the website, and for assistance in using the internet to locate docket submissions.

V. Authority and Signature

Scott C. Ketcham, Deputy Assistant Secretary of Labor for Occupational

Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 8–2020 (85 FR 58393).

Signed at Washington, DC, on March 21, 2025.

Scott C. Ketcham,

Deputy Assistant Secretary of Labor for Occupational Safety and Health.
