

mg/kg/day; and in the rabbit study, the NOEL for both maternal and developmental effects was 30 mg/kg/day. EPA has previously concluded, that the additional 10x safety factor should be retained due to the qualitative evidence of increased susceptibility demonstrated following *in utero* exposure in the prenatal developmental toxicity in rabbits and an incomplete toxicity data base. It should be noted that in the rabbit developmental toxicity study, the LOAEL for both maternal and developmental toxicity was 180 mg/kg/day. The effects on resorptions at this dose were observed in dams which showed an average weight loss (-3.8g) during the treatment period compared with an average weight gain in controls of 272g. Also, a multigeneration study has now been completed, and therefore, Dow AgroSciences LLC believes that an additional safety factor should no longer be necessary.

Additional uncertainty factors are not warranted for the safety of infants and children as reliable data support the appropriate use of a 100-fold uncertainty factor (MOE) to account for interspecies extrapolation and intraspecies variability. However, using the conservative exposure assumptions above for the determination in the general population, it is concluded that, the percentage of cPAD that will be utilized by aggregate exposure to dichlormid is 9.6% for children aged 1-6 years (the group at highest risk). Therefore, based on the completeness and reliability of the toxicity data base and the conservative exposure assessment, Dow AgroSciences LLC concludes, that there is a reasonable certainty that no harm will result to infants and children from aggregate exposure to dichlormid residues.

E. International Tolerances

There is neither a codex proposal nor Canadian or Mexican limits for residues of dichlormid in corn commodities.

The Media Bureau announces mandatory electronic filing via the Cable Operations and Licensing System (COALS) for FCC Forms 321, Aeronautical Frequency Notification. Mandatory electronic filing will commence on September 1, 2005. Paper versions of these forms will not be accepted for filing after August 31, 2005. The Commission will consider waivers where filers can show that electronic filing would cause them hardship. Users can access the electronic filing system for these forms via the Internet from the Commission's Web site at <http://www.fcc.gov/coals>. Instructions for use of the COALS and assistance are available from <http://www.fcc.gov/coals>, under "download instructions." Internet access to the COALS public access system requires a user to have a browser such as Netscape version 3.04 or Internet Explorer version 3.51, or later. For technical assistance using the system or to report problems, please contact the Media Bureau, Engineering Division at (202) 418-7000 or COALS_help@fcc.gov.

Federal Communications Commission.
