SUPPLEMENTARY INFORMATION:

I. Does this Action Apply to Me?

This action is directed to the public in general. This action may, however, be of interest to those persons who are concerned about OMB approval for information collections required by EPA regulations. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

II. Background

A. Why is this Technical Amendment Being Issued?

This document updates the OMB control numbers listed in 40 CFR part 9 for various actions published in the **Federal Register** since July 1, 2003, and issued under the Toxic Substances Control Act (TSCA) (15 U.S.C. 2601), the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136), and the Federal Food, Drug, and Cosmetic Act (FFDCA) (21 U.S.C. 408). Under PRA, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to an information collection request unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are codified in title 40 of the CFR, after appearing in the preamble of the final rule. These numbers are listed in 40 CFR part 9, displayed in a subsequent publication in the **Federal Register**, or displayed by other appropriate means, such as on a related collection instrument or form, or as part of the instructions to respondents. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9. In addition to displaying the applicable OMB control number in the final rule and on the applicable collection instruments, the Office of Prevention, Pesticides and Toxic Substances (OPPTS) has also typically listed the OMB control number in the

table at 40 CFR 9.1 for regulations it has issued under TSCA, FIFRA, and FFDCA. With this technical amendment, OPPTS is updating the table in 40 CFR 9.1 to list the OMB control number assigned to several final rules that have published since its last update.

B. Why is this Technical Amendment Issued as a Final Rule?

The information collection activities referenced in this document were previously subject to public notice and comment as part of the rulemaking process, and this action does not in any way affect the referenced information collection activities or rulemakings. This action only amends the table at 40 CFR 9.1 to update the list of OMB control numbers listed there. Due to the technical nature of the table, EPA finds that further notice and comment about amending the table is unnecessary. As a result, EPA finds that there is "good cause" under section 553(b)(3)(B) of the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(3)(B), to amend this table without further notice and comment.

C. What Specific Changes are Being Made?

Since July 1, 2003, EPA has taken several actions related to significant new use rules (SNURs) promulgated under TSCA section 5(a)(2). The paperwork burden associated with a new chemical SNUR is approved under OMB control number 2070-0012 (EPA ICR No. 0574), and under OMB control number 2070-0038 (EPA ICR No. 1188) when related to existing chemicals. These ICRs were first approved in the late 1980s and have been renewed every 3 years, with the latest approval for these ICRs published in the **Federal Register** on January 21, 2005 (70 FR 3195) (FRL-7862-6) for OMB control number 2070-0012, and on February 3, 2003 (68 FR 5288) (FRL-7446-7) for OMB control number 2070-0038. For further information on this ICR, please refer to the docket.

EPA is removing several entries because the SNURs have been revoked. Since these provisions no longer exist, the corresponding listing in the table should be removed as well. EPA is adding several entries to reflect the promulgation of new SNURs. The table is amended to list these new sections, along with their corresponding OMB control number as identified in the final rule.

III. Statutory and Executive Order Reviews

This final rule implements technical amendments to 40 CFR part 9 to reflect

changes to OMB approvals under PRA. It does not otherwise impose or amend any requirements. As such, this action does not require review by OMB under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993), the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), or Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). Nor does it impose any enforceable duty, contain any unfunded mandate, or impose any significant or unique impact on small governments as described in the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4).

This action will not have substantial direct effects on State or tribal governments, on the relationship between the Federal Government and States or Indian tribes, or on the distribution of power and responsibilities between the Federal Government and States or Indian tribes. As such, it will not have any "federalism implications" as described by Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999) or "tribal implications" as described by Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 6, 2000). Nor does it involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note), environmental justice-related issues that would require consideration under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994), or otherwise involve anything that would have any adverse effect on the supply, distribution, or use of energy that would require consideration under Executive Order 13211, entitled *Actions Concerning Regulations that Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001).

In addition, since this action is not subject to notice-and-comment requirements under the APA or any other statute, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*).

IV. Congressional Review Act

The Congressional Review Act (CRA), 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement

Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 of CRA allows the issuing agency to make a rule effective sooner than otherwise provided by the CRA if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary, or contrary to the public interest. This determination must be supported by a brief statement (5 U.S.C. 808(2)). As stated previously, EPA has made such a good cause finding, including the reasons therefore, and established an effective date of March 23, 2006. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this rule in the **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).
