Abstract: Through the National Prisoner Statistics program (NPS), the Bureau of Justice Statistics (BJS) collects annual aggregate counts of prisoners in the custody and under the jurisdiction of state and federal correctional authorities, as well as the number of

persons admitted or released. BJS uses the NPS to report each year on the changes to and movement through state and federal prison systems by sentenced individuals. These statistics contribute fundamentally to BJS's mission of describing the movements of persons through the criminal justice system. Revisions to the collection include removing the HIV/AIDS module from the survey in part due to minimal year over year change in counts. These items may be included with other health-related questions in periodic supplements as part of the NPS program. Additionally, BJS plans to cognitively test a new format for collecting race and ethnicity data in alignment with the revised 2024 OMB Statistical Policy Directive No. 15. Additionally, BJS will assess the availability of more detailed race and ethnicity information within the respondents' data systems.

I. Notice of Application

On July 16, 2024, McNally Tunneling Corp./ASI Marine (McNally/ASI or the applicant), submitted under Section 6(d) of the Occupational Safety and Health Act of 1970 (OSH Act; 29 U.S.C. 655) and 29 CFR 1905.11 (variances and other relief under section 6(d)) an application for a permanent variance from several provisions of the OSHA standard that regulates work in compressed air, 1926.803 of 1926 Subpart S—Underground Construction, Caissons, Cofferdams, and Compressed Air, and an interim order allowing it to proceed while OSHA considers the request for a permanent variance (OSHA-2025-0004-0002). This notice addresses McNally/ASI's application for a permanent variance and interim order for construction of the Southerly Tunnel and Consolidation (SOTC) Project in Cleveland, Ohio, only and is not applicable to future McNally/ASI Marine or McNally-related joint venture tunneling projects.

Specifically, this notice addresses McNally/ASI Marine's application for a permanent variance and interim order from the provisions of the standard that: (1) prohibit compressed-air worker exposure to pressures exceeding 50 pounds per square inch (p.s.i.) except in an emergency (29 CFR 1926.803(e)(5));¹ (2) require the use of the decompression values specified in decompression tables in Appendix A of the compressed-air standard for construction (29 CFR 1926.803(f)(1)); and (3) require the use of automated operational controls and a special decompression chamber (29 CFR
