

an amendment, but may file additional comments by the comment date below. Otherwise there are two ways to become involved in the Commission's review of the amendment in Docket No. CP04-13-002. First, any person who is not already a party to these proceedings wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date indicated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene to have comments considered. The second way to participate is by filing with the Secretary of the Commission by the date indicated below an original and two copies of their comments in support of or in opposition to this amendment. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the amendment provide copies of their protests only to the applicant and any party directly involved in the protest. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

Comment Date: September 21, 2004.

Acting Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Duke Power, A Division of Duke Energy Corporation, South Carolina; Project No. 2503-080; Notice of Availability of Environmental Assessment

September 13, 2004.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's (Commission) regulations (18 CFR Part 380), the Commission's staff have reviewed an application for non-project use of project lands and waters at the Keowee-Jocassee Hydroelectric Project (FERC No. 2503) and have prepared an Environmental Assessment (EA) on the application. The project consists of two reservoirs, Lake Jocassee and Lake Keowee. The proposed site for non-project use is in Oconee County, South Carolina, located on Lake Keowee. Lake Keowee is located on the Keowee River.

Specifically, the project licensee (Duke Power) has requested Commission approval to permit Keowee Town Houses, LLC, to construct and operate a commercial/residential marina on Lake Keowee. The marina will include 10 cluster docks with a total of 56 boat slips, and will be used privately by the residents of The Towne Homes at Keowee subdivision. In the EA, Commission staff analyzed probable environmental effects of the proposed marina improvements and have concluded that approval of the proposal, with appropriate environmental measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission order titled "Order Approving Non-project Use of Project Lands and Waters," which was issued August 25, 2004 and is available for review in Public Reference Room 2-A of the Commission's offices at 888 First Street, NE., Washington, DC. The EA also may be viewed on the Commission's Web site <http://www.ferc.gov> using the "e-library" link.
