VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN. We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Open Licensing Requirements:* Unless an exception applies, if you are awarded a grant under this competition, you will be required to openly license to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works. Additionally, a grantee or subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report

that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

5. *Performance Measures:* For the purposes of the Government Performance and Results Act of 1993 and Department reporting under 34 CFR 75.110, the following measure will be used by the Department to evaluate the success of the GPA short-term program: The percentage of GPA short-term project participants who disseminated information about or materials from their group project abroad through more than one outreach activity within six months of returning to their home institution. The following measure will be used by the Department to evaluate the success of the GPA long-term program: The percentage of GPA long-term project participants who increased their reading, writing, and/or listening/speaking foreign language scores by one proficiency level. The efficiency of the GPA long-term program will be measured by considering the cost per GPA participant who increased his/her foreign language score in reading, writing, and/or listening/speaking by at least one proficiency level.

The information provided by grantees in their performance reports submitted via the International Resource Information System (IRIS) will be the source of data for this measure. Reporting screens for institutions can be viewed at: http://iris.ed.gov/iris/pdfs/gpa_director.pdf and http://iris.ed.gov/iris/pdfs/gpa_participant.pdf.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP21-1-000, CP21-458-000]

Golden Pass Pipeline Company, LLC; Notice of Intent To Prepare an Environmental Impact Statement for the Proposed MP66-69 Compression Relocation and Modification Amendment and the Proposed MP33 Compressor Station Modification Amendment and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will discuss the environmental impacts of the proposed MP66-69 Compression Relocation and Modification Amendment and the proposed MP33 Compressor Station Modification Amendment

(Amendments), involving construction and operation of facilities by Golden Pass Pipeline Company, LLC (Golden Pass) in Calcasieu Parish, Louisiana and Orange County, Texas. The original Golden Pass LNG Export Project and Expansion Pipeline Project were reviewed in the 2016 Final Environmental Impact Statement issued in Docket No. CP14-517-000 and CP14-518-000 for the Golden Pass LNG Export Project (2016 FEIS), and the Order Granting Authorizations Under Sections 3 and 7 of the Natural Gas Act was issued on December 21, 2016. The Commission will use this EIS in its decision-making process to determine whether the Amendments are in the public convenience and necessity. The schedule for preparation of the EIS is discussed in the *Schedule for Environmental Review* section of this notice.

As part of the National Environmental Policy Act (NEPA) review process, the Commission takes into account concerns the public may have about proposals and the environmental impacts that could result whenever it considers the issuance of an authorization. This gathering of public input is referred to as "scoping;" and staff intends to prepare an EIS that will address the concerns received in response to this notice based on Golden Pass's Amendments. The EIS will tier off Commission staff's EIS and its findings and conclusions for the Golden Pass LNG Export Project and Expansion Pipeline Project approved in the December 21, 2016 Order.¹ Therefore, the Commission requests comments on potential alternatives and impacts regarding the Amendments, and any relevant information, studies, or analyses of any kind concerning impacts affecting the quality of the human environment. To ensure that your comments are timely and properly recorded, please submit your comments so that the Commission receives them in Washington, DC on or before 5:00 p.m. Eastern Time on December 6, 2021. Further details on how to submit comments are provided in the *Public Participation* section of this notice.

Golden Pass provided landowners with a fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" which addresses typically asked questions, including how to participate in the Commission's proceedings. This fact sheet along with
