* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

United Arab Emirates—Foreign Military Sales Order (FMSO) II Case

The Government of the United Arab Emirates (UAE) has requested to buy a Foreign Military Sales Order (FMSO) II to provide funds for blanket order requisitions under a Cooperative

Logistics Supply Support Agreement (CLSSA) for common spares/repair parts to support the United Arab Emirates' Homing All the Way Killer (HAWK), Phased Array Tracking Radar to Intercept on Target (PATRIOT), and Terminal High Altitude Area Defense (THAAD) weapon systems, additional support; and other related elements of logistics and program support. An earlier FMS case, valued at \$30 million, provided this requirement. The amended FMS case would extend the funding to cover an additional three years. The estimated total case value is \$65 million.

This proposed sale will support the foreign policy and national security of the United States by helping to improve the security of an important regional partner. The UAE is a vital U.S. partner for political stability and economic progress in the Middle East.

The UAE intends to utilize this follow-on support to maintain its air defense weapon systems in accordance with U.S. maintenance requirements and standards. This sale supports the UAE's existing ability to deter and defend against hostile threats by maintaining the operational readiness of critical air defense systems. The proposed sale will contribute to the UAE's ability to effectively integrate with U.S.-led coalitions and operate independently in support of U.S. interests and the security of U.S. forces in theater, and is consistent with U.S. bilateral and multilateral defense plans in the CENTCOM region. The UAE will have no difficulty absorbing this equipment and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There are no principal contractors involved with this potential sale. There are no known offset agreements associated with this sale.

Implementation of this sale will not require the assignment of any additional U.S. Government or contractor representatives to the UAE.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The Honorable Nancy Pelosi
 Speaker of the House
 U.S. House of Representatives
 H-209, The Capitol
 Washington, DC 20515

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 21-62 concerning the Navy's proposed Letter(s) of Offer and Acceptance to the Kingdom of Saudi Arabia for defense articles and services estimated to cost \$23.7 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

James A. Hursch
 Director

BILLING CODE 5001-06-C

Transmittal No. 21-62

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Kingdom of Saudi Arabia

(ii) *Total Estimated Value:*

Major Defense Equipment * .. \$16.7 million

Other \$ 7.0 million

TOTAL \$23.7 million

Funding Source: National Funds
 (iii) *Description and Quantity or Quantities of Articles or Services Under Consideration for Purchase:* Foreign Military Sales (FMS) case SR-P-LCO, was below congressional notification threshold at \$3.0 million (\$2.823

million in MDE) and included eleven (11) Multifunctional Information Distribution System—Low Volume Terminals (MIDS-LVT). The Kingdom of Saudi Arabia (KSA) has requested the case be amended to include thirty-one (31) MIDS-LVT Block Upgrade 2 (BU2) terminals. This amendment will push the current case above the MDE

notification threshold and thus requires notification of the entire case.

Major Defense Equipment (MDE):

- Eleven (11) Multifunctional Information Distribution System—Low Volume Terminals (MIDS—LVT) Block Upgrade 1 (BU1)
- Thirty-one (31) Multifunctional Information Distribution System—Low Volume Terminals (MIDS—LVT) Block Upgrade 2 (BU2)

Non-MDE:

Also included is communications equipment; support equipment; engineering and technical support and assistance; training; and other related elements of logistics and program support.

(iv) *Military Department:* Navy (SR—P—LCO)

(v) *Prior Related Cases, if any:* None

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex

(viii) *Date Report Delivered to Congress:* February 3, 2022

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Saudi Arabia—Multifunctional Information Distribution System—Low Volume Terminals (MIDS—LVT)

The Kingdom of Saudi Arabia has requested to buy thirty-one (31) Multifunctional Information Distribution System—Low Volume Terminals (MIDS—LVT) Block Upgrade 2 (BU2), that will be added to a previously implemented case. The original FMS case, valued at \$3.0 million, included eleven (11) Multifunctional Information Distribution System—Low Volume Terminals (MIDS—LVT) Block Upgrade 1 (BU1). Therefore, this notification is for a total of eleven (11) Multifunctional Information Distribution System—Low Volume Terminals (MIDS—LVT) Block Upgrade 1 (BU1) and thirty-one (31) Multifunctional Information Distribution System—Low Volume Terminals (MIDS—LVT) Block Upgrade 2 (BU2). Also included is communications equipment; support equipment; engineering and technical support and assistance; training; and other related elements of logistics and program support. The total estimated cost is \$23.7 million.

This proposed sale will support U.S. foreign policy and national security objectives by helping to improve the security of a friendly country that continues to be an important force for political stability and economic growth in the Middle East.

The proposed sale will provide the Saudi armed forces with the equipment, training, and follow-on support necessary to protect Saudi Arabia, and the region, from the destabilizing effects of terrorism, countering Iranian influence, and other threats. The proposed MIDS—LVT (BU2) terminals will be installed on Terminal High Altitude Air Defense (THAAD) platforms, while the previously provided MIDS—LVT (BU1) terminals were installed on PATRIOT. Saudi Arabia will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor is undetermined as there will be a competitive contractual award process after LOA implementation. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any U.S. Government or contractor representatives to Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 21–62

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The MIDS—LVT is used by Navy, Marine Corps, and Air Force, and other foreign partners and allows Air Defense units to engage incoming missile or manned and unmanned airborne platforms in day, night, and adverse weather conditions. The MIDS—LVT utilizes an encrypted frequency hopping pattern to transmit tactical situational awareness data (Link 16). Link 16 is the standard Tactical Data Link (TDL) used by both U.S. and foreign nations to provide real time operational awareness for both individual units as well as overall command and control components.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Saudi Arabia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal are authorized for release and export to the Kingdom of Saudi Arabia.
