Contractor entities are responsible for completing contractual requirements. Based on guidance contained in their contracts, they must identify which personnel will require background investigations for clearances in order to complete those contracts. Therefore, in order to comply with the terms of the Fiscal Year 2001 Defense Authorization Bill as they pertain to quantifying background investigation requirements and to ensure sufficient funding for these background investigations for clearances, DCSA must solicit input from the contractor entities regarding the numbers of each type of investigation they require for contract performance requiring access to classified information. The survey data are used to project case and cost estimates, integral to planning and programming for NISP personnel security investigations across the Fiscal Year Defense Plan.
