

securities exchange.<sup>13</sup> In particular, the Commission believes that the proposal, as amended, is consistent with Section 6(b)(5) of the Act,<sup>14</sup> which requires that the rules of an exchange be designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

The Commission believes that the proposal to relax the quoting requirements applicable to SQTs, RSQTs, DSQTs, and DRSQTs in LEAPS should reduce the number of options quotations required to be submitted on the Exchange and, therefore, should help to mitigate the Exchange's quote message traffic and capacity. In addition, the Commission notes that this proposal is consistent with the approach in current Phlx Rule 1012, Commentary .03, which states that strike price interval, bid/ask differential and continuity rules will not apply to such long term option series until the time to expiration is less than nine months.<sup>15</sup>

#### IV. Conclusion

*It is therefore ordered*, pursuant to Section 19(b)(2) of the Act,<sup>16</sup> that the proposed rule change (SR-Phlx-2006-52), as amended, is hereby approved on a six month pilot basis beginning on the date of this approval order.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.<sup>17</sup>

Secretary.
