

Summary of Collection: The Animal and Plant Health Inspection Service (APHIS) is charged with preventing the introduction into, and dissemination and establishment of plant pests in the United States. The statutory requirements for the information collection activity are found in the Plant Pest Act (PPA). The regulations in 7 CFR part 340 implement the provisions of the PPA by providing the information necessary to establish conditions for proposed introductions of certain genetically engineered organisms and products which present a risk of plant pest introduction. APHIS will collect information using several APHIS forms.

Need and Use of the Information: APHIS will collect the information through a notification procedure or a permit requirement to ensure that certain genetically engineered organisms, when imported, moved interstate, or released into the environment, will not present a risk of plant pest introduction. The information collected through the petition process is used to determine whether a genetically engineered organism will pose a risk to agriculture or the environment if grown in the absence of regulations by APHIS. The information is also provided to State departments of agriculture for review, and made available to the public and private sectors on the Internet to ensure that all sectors are kept informed concerning any potential risks posed through the use of genetic engineering technology.

Description of Respondents: Business or other for profit; Not-for-profit institutions; State, Local or Tribal Government.

Number of Respondents: 97.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 2,676.

Animal and Plant Health Inspection Service

Title: Export Certification, Accreditation of Non-Government Facilities.

OMB Control Number: 0579-0130.

Summary of Collection: The Department of Agriculture is responsible for preventing plant diseases or insect pests from entering the United States, as well as the spread of pests not widely distributed in the United States, and eradicating those imported when eradication is feasible. The Plant Quarantine Act and the Federal Pest Act authorize the Department to carry out this mission. The regulations in 7 CFR part 353 allow non-government facilities (such as commercial laboratories and private inspection services) to be accredited by

the Animal and Plant Health Inspection Service (APHIS) to perform specific laboratory testing or phytosanitary inspections that could serve as the basis for issuing Federal phytosanitary certificates, phytosanitary certificates for reexport, or export certificates for processed plant products. APHIS provides export certification services to assure other countries that the plants and plant products they are receiving from the United States are free of plant diseases and insect pests.

Need and Use of the Information: APHIS will collect information for applications submitted by operator/owner of a non-government facility seeking accreditation to conduct laboratory testing or phytosanitary inspection. The application should contain the legal name and full address of the facility, the name, address, telephone and fax numbers of the facility's operator, a description of the facility, and a description of the specific laboratory testing or phytosanitary inspection services for which the facility is seeking accreditation. If the activities are not conducted properly, APHIS export certification program would be compromised, causing a disruption in plant and plant product exports that could prove financially damaging to U.S. exporters.

Description of Respondents: Business or other for profit.

Number of Respondents: 15.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 315.

Ruth Brown,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Forest Service

Notice of Settlement Pursuant to CERCLA; Butte Highlands Mill Site, Silver Bow County, MT

AGENCY: Forest Service, USDA.

ACTION: Notice of settlement.

SUMMARY: In accordance with section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (CERCLA), 42 U.S.C. 9622(i), notice is hereby given of an administrative settlement for recovery of past response costs with the Butte Highlands Mining Company (the Settling Party) concerning the Butte Highlands Mill Site, Silver Bow County, Montana ("the Site"). Under the settlement, the Settling Party has agreed to pay the Forest Service \$100,000 to reimburse it for a portion of the response costs incurred at the Site. Pursuant to section 122(h)(1) of CERCLA, 42, U.S.C. 9622(h)(1), the USDA Forest Service Northern Region has agreed to forego the collection of substantial remaining past response costs at the Site from the Settling Party because of the company's inability to pay any additional amount. The settlement includes a covenant not to sue the Settling Party pursuant to Sections 106 and 107(a) of CERCLA, 42 U.S.C. 9606 and 9607(a), with regard to the Site.

For thirty (30) days following the date of publication of this notice, the United States will receive written comments relating to the settlement. The United States will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or consideration which indicate that the
