This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection

requirements and provide the requested data in the desired format. The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Case Service Report (RSA–911).*OMB Control Number:* 1820–0508.*Type of Review:* Revision of a currently approved ICR.*Respondents/Affected Public:* State, Local, and Tribal Governments.*Total Estimated Number of Annual Responses:* 312.*Total Estimated Number of Annual Burden Hours:* 12,236,731.*Abstract:* The Case Service Report (RSA–911) is used to collect individual level data on State Vocational Rehabilitation (VR) program participants on a quarterly basis. The data collected in this report are mandated by section 101(a)(10) and 607 of the Rehabilitation Act of 1973 (Act) and section 116(d) of the Workforce Innovation and Opportunity Act. In addition, the Rehabilitation Services Administration (RSA) uses data reported through this collection to support its other responsibilities under the Act. Section 14(a) of the Act calls for the evaluation of programs authorized under the Act, as well as an assessment of the programs' effectiveness in relation to cost. Many of these evaluations use RSA–911 data. RSA also uses data captured through the RSA–911 during the conduct of both the annual review and periodic on-site monitoring of VR agencies required by section 107 of the Act to examine the effectiveness of program performance. Other important management activities, such as the provision of technical assistance, program planning, and budget preparation and development, are greatly enhanced through the use of RSA–911 data. In addition, RSA uses RSA–911 data in the exchange of data under a data sharing agreement with the Social Security Administration and the U.S. Department of Health and Human

Services as required by section 131 of the Act. Finally, the RSA–911 is considered to be one of the most robust databases in describing the demographics of the disabled population in the country and as such is used widely in researchers' disability-related analyses and reports.

The current RSA–911 expires on 05/31/2024, which occurs during Program Year 2023 (07/01/2023–06/30/2024). Because RSA must collect the same performance data for the entirety of a Program Year, RSA must begin Program Year 2024 with approval of this proposed revision in place. Thus, RSA is proposing to extend with revisions the RSA–911 for three years. If this revision is approved, VR agencies will collect and report data under this collection for Program Years 2024 through 2026. (07/01/2024–06/30/2027).

Dated: April 14, 2023.

BILLING CODE 4000–01–P**DEPARTMENT OF ENERGY****Agency Information Collection Extension****AGENCY:** U.S. Department of Energy.**ACTION:** Notice and request for comments.**SUMMARY:** The Department of Energy (DOE), pursuant to the Paperwork Reduction Act of 1995, intends to extend for three years an information collection request with the Office of Management and Budget (OMB).**DATES:** Comments regarding this proposed information collection must be received on or before June 20, 2023. If you anticipate difficulty in submitting comments within that period, contact the person listed below as soon as possible.**ADDRESSES:** Written comments may be sent to Mr. Chris Early, U.S. Department of Energy, Building Technologies Program, Mail Stop EE–5B, Forrestal Building, 1000 Independence Avenue SW, Washington, DC 20585–0121 or by email to Chris.Early@ee.doe.gov.**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument and instructions should be directed to Mr. Chris Early, U.S. Department of Energy, Building

Technologies Program, Mail Stop EE–5B, Forrestal Building, 1000 Independence Avenue SW, Washington, DC 20585–0121, or by email at Chris.Early@ee.doe.gov or by calling (240) 354–1304.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) whether the extended collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

This information collection request contains: (1) *OMB No.*: 1910–5184; (2) *Information Collection Request Title*: Programs for Improving Energy Efficiency in Buildings; (3) *Type of Review*: extension; (4) *Purpose*: The proposed collection will enable DOE to understand the universe of organizations participating in building load management programs, including the following four voluntary programs: the Home Performance with ENERGY STAR Program, the Home Energy Score Program, the Better Buildings Residential Network, and the Zero Energy Ready Home Program. DOE encourages and assists the people and organizations that voluntarily participate in energy efficiency programs to build or renovate buildings for the purposes of improved efficiency, reliability, and affordability. The partners who voluntarily participate in the programs include: home builders, building trades and building-related associations, home design professionals, home energy raters and auditors, home inspectors, building consultants, manufacturers of building products, retailers, utility companies, financial institutions, non-profit organizations, educational institutions, energy program administrators and implementers, Home Performance with ENERGY STAR sponsors, state or local government energy offices or agencies, and other organizations that believe peer sharing will help them improve their effectiveness in encouraging effective energy upgrades. DOE proposes to continue to collect information such as names of program participants and names of organizations and addresses;

estimates of how many homes they can get to participate in the programs; information about building stock (no building owner information is collected), and load management strategies. The collected information helps DOE understand the participating partners' activities and progress toward achieving scheduled milestones enabling DOE to make decisions about the best way to respond to partners' needs to improve their operations and actions to lower energy consumption and improve affordability; (5) *Annual Estimated Number of Respondents*: 672; (6) *Annual Estimated Number of Total Responses*: 45,189. (7) *Annual Estimated Number of Burden Hours*: 19,365. (8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: zero dollars. DOE estimates that there are no additional costs to participants other than the costs associated with the burden hours.
