We will file in the docket all comments we receive, as well as a report summarizing each substantive public contact with FAA personnel concerning this proposed rulemaking. Background

On September 25, 2002, the FAA published NPRM, Notice No. 02-11, Flight Simulation Device Initial and Continuing Qualification and Use (67 FR 60284). Comments to that document were to be received on or before December 24, 2002.

By letter dated October 16, 2002, the Air Transport Association requested that the FAA extend the comment period for Notice No. 02-11 until March 31, 2003. In addition, by letter dated October 24, 2002, Covington & Burling, on behalf of CAE (a flight simulation

manufacturer), requested that the FAA extend the comment period for Notice No. 02-11 until March 31, 2003. The commenters noted that the NPRM was large and that a 90-day comment ending December 24, 2002, was not sufficient in order to make substantive and comprehensive comments.

The FAA agrees that additional time for comments may be needed because of the timing of the 90-day comment period. However, the FAA believes that a 90-day extension would be excessive. Therefore, the FAA believes an additional 60 days would be adequate for these entities to provide comment to Notice No. 02-11.

Extension of Comment Period

In accordance with § 11.47 of Title 14, Code of Federal Regulations, the FAA has reviewed the requests made by Air Transport Association and Covington & Burling, on behalf of CAE, for extension of the comment period to Notice No. 02-11. The FAA has found good cause for extending the comment period for 60 days. The FAA also has determined that extension of the comment period is consistent with the public interest.

Accordingly, the comment period for Notice No. 02-11 is extended until February 24, 2003.

Issued in Washington, DC, on November 7, 2002.

Louis C. Cusimano,

Acting Director, Flight Standards Service.
