## DEPARTMENT OF LABOR

### Occupational Safety and Health Administration

#### Agency Information Collection Activities: Announcement of the Office of Management and Budget (OMB) Control Numbers Under the Paperwork Reduction Act

**AGENCY:** Occupational Safety and Health Administration (OSHA), Labor.

**ACTION:** Notice; announcement of the Office of Management and Budget's (OMB) approval of information collection requirements.

**SUMMARY:** The Occupational Safety and Health Administration (OSHA) announces that OMB extended approval for the information collection requirements found in OSHA's standards and its requirements on non-regulatory collections outlined in this notice. OSHA sought approval of these requirements under the Paperwork Reduction Act of 1995 (PRA), and as required by that Act, is announcing the approval numbers and expiration dates for these requirements and regulations.

**DATES:** April 13, 2022.

#### FOR FURTHER INFORMATION CONTACT:

Seleda Perryman or Theda Kenney, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, telephone (202) 693–2222.

**SUPPLEMENTARY INFORMATION:** In a series of **Federal Register** notices, the agency provided 60-day comment periods for the public to respond to OSHA's burden hour and cost estimates. The various information collection (paperwork)

requirements in the safety and health standards pertain to general industry, shipyards, maritime, construction, and agriculture (*i.e.*, 29 CFR parts 1910, 1915, 1926, and 1928) and its requirements on the listed regulations.

In accordance with the PRA (44 U.S.C. 3501–3520), OMB approved these information collection requirements. The table below provides the following information for each of these requirements approved by OMB: the title of the **Federal Register** notice; the **Federal Register** citation (date, volume, and leading page); OSHA docket number; OMB's Control Number; and the new expiration date.

In accordance with 5 CFR 1320.5(b), an agency cannot conduct, sponsor, or require a response to a collection of information unless the collection displays a valid OMB control number, and the agency informs respondents that they need not respond to the collection of information.

### NATIONAL SCIENCE FOUNDATION

#### Agency Information Collection Activities: Comment Request; National Science Foundation Proposal/Award Information—NSF Proposal and Award Policies and Procedures Guide

**AGENCY:** National Science Foundation.

**ACTION:** Notice.

**SUMMARY:** The National Science Foundation (NSF) is announcing plans to renew this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years.

**DATES:** Written comments on this notice must be received by June 13, 2022 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to the address below.

**FOR FURTHER INFORMATION CONTACT:** Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite E7400, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

### SUPPLEMENTARY INFORMATION:

*Title of Collection:* "National Science Foundation Proposal/Award Information—NSF Proposal and Award Policies and Procedures Guide."

*OMB Approval Number:* 3145-0058.

*Expiration Date of Approval:* June 30, 2024.

*Type of Request:* Intent to seek approval to extend with revision an information collection for three years. The primary purpose of this revision is to update the NSF Proposal and Award Policies and Procedures Guide (PAPPG) to incorporate a number of policy-related changes and clarifications of language. The draft NSF PAPPG is now available for your review and consideration on the NSF website at <http://www.nsf.gov/bfa/dias/policy/>. To facilitate review, revised text has been highlighted in yellow throughout the document to identify significant changes. A brief comment explanation of the change also is provided.

*Proposed Project:* The National Science Foundation Act of 1950 (Pub. L. 81-507) sets forth NSF's mission and purpose:

"To promote the progress of science; to advance the national health, prosperity, and welfare; to secure the national defense . . . ."

The Act authorized and directed NSF to initiate and support:

- Basic scientific research and research fundamental to the engineering process;
- Programs to strengthen scientific and engineering research potential;
- Science and engineering education programs at all levels and in all the various fields of science and engineering;
- Programs that provide a source of information for policy formulation; and
- Other activities to promote these ends.

NSF's core purpose resonates clearly in everything it does: Promoting achievement and progress in science and engineering and enhancing the potential for research and education to contribute to the Nation. While NSF's vision of the future and the mechanisms it uses to carry out its charges have evolved significantly over the last six decades, its ultimate mission remains the same.

*Use of the Information:* The regular submission of proposals to the

Foundation is part of the collection of information and is used to help NSF fulfill this responsibility by initiating and supporting merit-selected research and education projects in all the scientific and engineering disciplines. NSF receives more than 50,000 proposals annually for new projects, and makes approximately 11,000 new awards.

Support is made primarily through grants, contracts, and other agreements awarded to approximately 2,000 colleges, universities, academic consortia, nonprofit institutions, and small businesses. The awards are based mainly on merit evaluations of proposals submitted to the Foundation.

The Foundation has a continuing commitment to monitor the operations of its information collection to identify and address excessive reporting burdens as well as to identify any real or apparent inequities based on gender, race, ethnicity, or disability of the proposed principal investigator(s)/project director(s) or the co-principal investigator(s)/co-project director(s).

*Burden on the Public:* The Foundation estimates that an average of 120 hours is expended for each proposal submitted. An estimated 50,000 proposals are expected during the course of one year for a total of 6,000,000 public burden hours annually.

*Comments:* Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.
