Jiangsu Keri Wood Co., Ltd.	Jiangsu Keri Wood Co., Ltd.	0.00

Assessment

The Department will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by the NSR with respect to Keri Wood.⁸ The Department intends to issue assessment instructions to CBP 15 days after the date of publication of these final results of review. The Department intends to instruct CBP to liquidate entries of subject merchandise Keri Wood without regard to antidumping duties because its weighted-average dumping margin in these final results is zero.⁹ For entries that were not reported in the U.S. sales data submitted by Keri Wood, the Department intends to instruct CBP to liquidate such entries at the rate for the PRC-wide entity.¹⁰

As the Department is rescinding the NSR with respect to Simite Wooden, we have not calculated a company-specific dumping margin for Simite Wooden. Simite Wooden's entries covered by this NSR will be assessed at the cash deposit rate required at the time of entry, which is the PRC-wide rate (*i.e.*, 25.62 percent).

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results and partial rescission of this NSR for shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act. For Kerri Wood, because it has received a separate rate, and the rate established in the final results of this NSR is zero, a zero cash deposit will be required. For Simite Wooden, the Department will instruct CBP to discontinue the option of posting a bond or security in lieu of a cash deposit for entries of subject merchandise from Simite Wooden. Because we did not calculate a dumping margin for Simite Wooden or otherwise

find that Simite Wooden is eligible for a separate rate in this review, Simite Wooden continues to be part of the PRC-wide entity. The cash deposit rate for the PRC-wide entity is 25.62 percent. These cash deposit requirements shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to Administrative Protective Order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in these segments of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this notice in accordance with sections 751(a)(2)(B) and (C) and 777(i) of the Act, and 19 CFR 351.214.

Dated: May 26, 2017.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

SUPPLEMENTARY INFORMATION:

Agenda

Tuesday, June 20, 2017

After introductions and brief announcements, the meeting will begin with reports from the Council Chairman and Executive Director, NMFS's

Regional Administrator for the Greater Atlantic Regional Fisheries Office (GARFO), liaisons from the Northeast Fisheries Science Center (NEFSC) and Mid-Atlantic Fishery Management Council, representatives from NOAA General Counsel and the Office of Law Enforcement, and staff from the Atlantic States Marine Fisheries Commission and the U.S. Coast Guard. Following these reports, the Council will hear from its Whiting Committee, which will provide a brief progress report on Amendment 22 to the Northeast Multispecies Fishery Management Plan (FMP). The amendment is being developed to potentially limit access to the small-mesh multispecies fishery. Next, the Council will review and discuss the status of Amendment 6 to the Monkfish FMP. This amendment initially was intended to consider potential catch share management approaches for the monkfish fishery. The Council also will discuss and approve research priorities for the Monkfish Research Set-Aside Program. The Groundfish Committee report then will commence with a preview of the extensive afternoon agenda. Discussion of the first agenda item potentially could begin prior to lunch. For this item, the Council will receive a summary of the scoping comments for Groundfish Monitoring Amendment 23 and discuss the amendment's purpose and need, as well as the likely range of alternatives.

Following the lunch break, the Council will resume the groundfish monitoring discussion if necessary and spend the remainder of the afternoon on groundfish. The Council will initiate Framework Adjustment 57 to the Northeast Multispecies FMP, which will include: (1) 2018–2020 fishery specifications and other management measures; (2) 2018 total allowable catches (TACs) for U.S./Canada stocks of Eastern Georges Bank (GB) cod, Eastern GB haddock, and GB yellowtail flounder; (3) Atlantic halibut accountability measures (AMs); and (4) recreational management measures. The Council will review a draft letter with comments on the Marine Recreational Information Program Strategic Plan. Finally, the Council will consider comments on the interim final rule for 2017 and 2018 Sector Operations Plans, including whether measures or restrictions should be recommended for Sector IX due to misreporting by sector vessels. The Council then will adjourn for the day.

Wednesday, June 21, 2017

The second day of the meeting will begin with a presentation on NMFS's
