Public Comments: USIBWC will consider substantive comments from the public and stakeholders for 30 days after the date of publication of this Notice of Availability in the **Federal Register**.

Please note all written and email comments received during the comment period will become part of the public record, including any personal information you may provide. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Comments and requests for public hearings should be sent to: Elizabeth Verdecchia, Natural Resources Specialist, USIBWC, 4171 N. Mesa, C-100; El Paso, Texas 79902. Telephone: (915) 832-4701, Fax: (915) 493-2428, email: Elizabeth.Verdecchia@ibwc.gov.

Background: This Draft SEA analyzes the potential impacts of constructing a flood control improvement project along the Rio Grande located within a portion of the Rio Grande Canalization Project (RGCP) protective levee system in El Paso County, Texas along approximately 5.6 miles on the east bank from just north of Vinton Road Bridge, south through the Canutillo area, and downstream to Borderland Bridge.

The purpose is to construct a flood control structure with the following objectives: (1) Eliminate levee deficiencies within the Vinton to Canutillo reach and provide flood protection to withstand the 100-year flood with a minimum of 2 feet freeboard; (2) Maintain the design flood capacity of the RGCP; and (3) Enable the USIBWC to obtain accreditation of levees by the Federal Emergency Management Agency (FEMA).

In the Final Environmental Assessment on Flood Control Improvements to the Rio Grande

Canalization Project, dated December 2007, the USIBWC proposed to conduct flood control improvements along approximately 52-miles of east and west levees within the RGCP. The proposed action included the construction of a new flood control structure in the Canutillo Area; however, details of the proposed structure had not been developed and were therefore not analyzed in the 2007 EA.

This Draft SEA evaluates potential environmental impacts of the No Action Alternative and the Preferred Alternative. The Preferred Alternative calls for the construction of a combination of 3 miles of new earthen levees on the floodplain and 2.6 miles of concrete floodwall where limited right of way or physical space exists between the river and the railroad. The Preferred Alternative would also require the construction of a floodgate at the Canutillo Bridge, eleven drainage structures on ephemeral streams with bank stabilization (including modification of one existing drainage structure and construction of ten new drainage structures). Scour protection blankets would be required on some sections of the earthen levee that are close to the river bank. Permits would be required from the Burlington Northern Santa Fe Railroad for work within the railroad right of way. An Individual Permit would be required from the U.S. Army Corps of Engineers for dredge and fill of Waters of the United States, per the Clean Water Act Sections 404 and 401. Six additional alternatives were considered and evaluated in previous analyses but were either found to not meet the purpose and need or were impractical.

Potential impacts on natural, cultural, and other resources were evaluated. While the Preferred Alternative does have adverse impacts to riparian vegetation, Waters of the United States, and access to the river for recreation, the USIBWC has proposed mitigation to restore over 35 acres of native riparian habitat on the floodplain. Mitigation would be part of required permits for construction. A Mitigated Finding of No Significant Impact has been prepared for the Preferred Alternative based on a review of the facts and analyses contained in the SEA.

BILLING CODE 4410-02-P

DEPARTMENT OF JUSTICE

[CPCLO Order No. 001-2017]

Privacy Act of 1974; System of Records

AGENCY: United States Department of Justice.

ACTION: Notice of a New System of Records.

SUMMARY: Pursuant to the Privacy Act of 1974 and Office of Management and Budget (OMB) Circular No. A-108, notice is hereby given that the Department of Justice (Department or DOJ) proposes to add a new DOJ system of records titled, "DOJ Insider Threat Program Records (ITPR)," JUSTICE/DOJ-018. In the **Federal Register** of May 31, 2017, the Department is rescinding its notice of an FBI system of records notice titled "FBI Insider Threat Program Records," JUSTICE/FBI-023, published on September 19, 2016. This new DOJ-wide system of records will cover the records previously claimed under JUSTICE/FBI-023. This new system of records establishes certain Department-wide capabilities to detect, deter, and mitigate insider threats. Insiders are defined to include any person with authorized access to any United States Government resource to include personnel, facilities, information, equipment, networks, or systems. DOJ personnel assigned to the DOJ Insider Threat Prevention and Detection Program (ITPDP) will use the system to facilitate management of insider threat inquiries and activities associated with inquiries and referrals, identify potential threats to DOJ resources and information assets, track referrals of potential insider threats to internal and external partners, and provide statistical reports and meet other insider threat reporting requirements. Elsewhere in this **Federal Register**, DOJ is concurrently issuing a Notice of Proposed Rulemaking to exempt JUSTICE/DOJ-018 from certain provisions of the Privacy Act, and withdrawing the notice of proposed rulemaking regarding for JUSTICE/FBI-023, issued in CPCLO Order No. 008-2016.

DATES: In accordance with 5 U.S.C. 552a(e)(4) and (11), this notice is effective upon publication, subject to a 30-day period in which to comment on the routine uses, described below. Please submit any comments by July 5, 2017.

ADDRESSES: The public, OMB, and Congress are invited to submit any comments to the U.S. Department of Justice, ATTN: Privacy Analyst, Office of Privacy and Civil Liberties, National Place Building, 1331 Pennsylvania Avenue NW., Suite 1000, Washington, DC 20530-0001, by facsimile at 202-307-0693, or email at privacy.compliance@usdoj.gov. To ensure proper handling, please reference the above CPCLO Order No. in your correspondence.
