

determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

11. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This action is not a “significant energy action” under Executive Order

13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves the establishment of a safety zone and, therefore it is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. An environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR parts 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

- 1. The authority citation for Part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 46 U.S.C. Chapters 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Pub. L. 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

- 2. Add § 165.T09–0886 to read as follows:

§ 165.T09–0886 Safety Zone; Submarine Cable Installation Project, Chicago River, Chicago, IL.

(a) *Location.* The safety zone will encompass all waters of the Chicago River (South Branch) in the vicinity of the West Adams Street and West Jackson Boulevard bridges.

(b) *Effective and enforcement period.* This regulation is effective and will be enforced between 4 a.m. and 5 p.m. on September 28, 2012 and October 5 and 8, 2012. If the Captain of the Port elects to suspend enforcement of this safety zone before its effectiveness expires, he will make the public aware of such suspension via a local Broadcast Notice to Mariners.

(c) *Regulations.* (1) In accordance with the general regulations in section 165.23 of this part, entry into, transiting, or anchoring within this safety zone is prohibited unless authorized by the Captain of the Port, Sector Lake Michigan or his designated on-scene representative.

(2) This safety zone is closed to all vessel traffic, except as may be permitted by the Captain of the Port, Sector Lake Michigan or his designated on-scene representative.

(3) The “on-scene representative” of the Captain of the Port, Sector Lake Michigan is any Coast Guard commissioned, warrant or petty officer who has been designated by the Captain of the Port, Sector Lake Michigan to act on his behalf.

(4) Vessel operators desiring to enter or operate within the safety zone shall contact the Captain of the Port, Sector Lake Michigan or his on-scene representative to obtain permission to do so. The Captain of the Port, Sector Lake Michigan or his on-scene representative may be contacted via VHF Channel 16. Vessel operators given permission to enter or operate in the safety zone must comply with all directions given to them by the Captain of the Port, Sector Lake Michigan, or his on-scene representative.

Dated: September 21, 2012.

M.W. Sibley,

Captain, U.S. Coast Guard, Captain of the Port, Sector Lake Michigan.

[FR Doc. 2012–24183 Filed 9–27–12; 4:15 pm]

BILLING CODE 9110–04–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R05–OAR–2007–1102; EPA–R05–OAR–2008–0782; FRL–9714–7]

Approval and Promulgation of Air Quality Implementation Plans; Ohio; PBR and PTIO

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is approving six Permit-by-Rule (PBR) provisions, a Permit to

Install and Operate (PTIO) program, two permanent exemptions from the Permit to Install (PTI) requirement and a general permit program as additions to Ohio's State Implementation Plan (SIP) under the Clean Air Act. The Ohio Environmental Protection Agency (OEPA) has requested these rule revisions to make its air pollution permit program more efficient. Approving these additions will make the PBRs, PTIOs, and general permits federally enforceable. Because these rule revisions will make Ohio's air permit program more efficient while continuing to protect human health and the environment, EPA is taking direct final action to approve the revisions.

DATES: This direct final rule will be effective November 30, 2012, unless EPA receives adverse comments by October 31, 2012. If adverse comments are received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R05-OAR-2007-1102; EPA-R05-OAR-2008-0782, by one of the following methods:

1. *www.regulations.gov*: Follow the on-line instructions for submitting comments.
2. *Email*: damico.genevieve@epa.gov.
3. *Fax*: (312) 385-5501.
4. *Mail*: Genevieve Damico, Chief, Air Permits Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604.
5. *Hand Delivery*: Genevieve Damico, Chief, Air Permits Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604. Such deliveries are only accepted during the Regional Office normal hours of operation, and special arrangements should be made for deliveries of boxed information. The Regional Office official hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m., excluding Federal holidays.

Instructions: Direct your comments to Docket ID No. EPA R05 OAR 2007-1102; EPA-R05-OAR-2008-0782. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at *www.regulations.gov*, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you

consider to be CBI or otherwise protected through *www.regulations.gov* or email. The *www.regulations.gov* Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to EPA without going through *www.regulations.gov* your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the *www.regulations.gov* index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in *www.regulations.gov* or in hard copy at the Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. This Facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays. We recommend that you telephone Kaushal Gupta, Environmental Engineer, at (312) 886-6803 before visiting the Region 5 office.

FOR FURTHER INFORMATION CONTACT:

Kaushal Gupta, Environmental Engineer, Air Permits Section, Air Programs Branch (AR-18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886-6803, gupta.kaushal@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever "we," "us," or "our" is used, we mean EPA. This **SUPPLEMENTARY INFORMATION** section is arranged as follows:

- I. What does this document address?
- II. What program changes is EPA approving?
- III. What action is EPA taking?
- IV. Statutory and Executive Order Reviews

I. What does this document address?

This document addresses requests from Ohio to incorporate the following rules into the Ohio SIP.

1. PBR and Permanent Exemption Provisions

Ohio's federally approved construction program, Ohio Administrative Code (OAC) 3745-31 ("Permits to Install New Sources of Pollution") provides the authority for OEPA to issue PTIs to new sources of air pollution or modifications to existing sources of air pollution. For attainment areas, the program was conditionally approved into Ohio's SIP on October 10, 2001 (66 FR 51570) and fully approved on January 22, 2003 (68 FR 2909). For nonattainment areas, the program was fully approved on January 10, 2003 (68 FR 1366). Included in this program at OAC 3745-31-03 ("Permit to install exemptions") are exemptions from the requirement to obtain a PTI before constructing or modifying a source of air pollution. The types of exemptions include permanent exemptions, Federal-based exemptions, discretionary exemptions, and PBR exemptions (exempting certain sources from the PTI requirement as long as they comply with the relevant provisions of the PBR rule).

On April 24, 2006, EPA received a request from OEPA to approve the addition of two permanent exemptions and six PBR provisions to the SIP. This document addresses the request.

2. PTIO and General Permit Programs

Prior to the rulemaking, a minor source (that is, a source not subject to Title V of the Clean Air Act) in Ohio would be issued both a PTI under OAC 3745-31 and a Permit to Operate (PTO) under OAC 3745-35 ("Air Permits to Operate and Variances"). Ohio is now combining both permit programs into a new PTIO program. Under the PTIO program, a minor source would be issued one PTIO instead of a PTI and a PTO.

On June 30, 2008, the state regulations to implement the PTIO program became effective and OAC 3745-35 was rescinded. On July 18, 2008, OEPA submitted to EPA a request to approve the addition of the PTIO program and a general permit program to the SIP. The changes to Ohio's SIP involve the modification of various parts of OAC 3745-31, the removal of OAC 3745-35, and the addition of OAC 3745-31-29 to enable the issuance of federally enforceable general PTIs and general PTIOs. This document addresses the request.

II. What program changes is EPA approving?

1. PBR and Permanent Exemption Provisions

EPA is approving the requested modifications and additions to the permanent exemption and PBR provisions in OAC 3745–31–03. The significant changes are as follows.

The permanent exemption from the requirement to obtain a PTI for organic liquid storage tanks is being expanded to cover larger tanks. Currently, the exemption only applies to tanks with a capacity less than 10,000-gallons; the modification would exempt tanks of less than 19,815-gallon capacity (except for gasoline storage tanks at bulk gasoline plants), tanks between 19,815 and 39,894-gallon capacity with maximum true vapor pressure less than 2.176 pounds per square inch absolute (psia), and tanks of 39,894-gallon or greater capacity with maximum true vapor pressure less than 0.508 psia. Note that permanent exemptions under this rule do not exempt any source from the requirements of the Clean Air Act, including but not limited to, being considered for purposes of determining whether a facility constitutes a major source or being included in a Title V permit application.

PBR exemptions from the requirement to apply for individual PTIs are being added for auto body refinishing facilities, gasoline dispensing facilities with Stage I controls, gasoline dispensing facilities with Stage I and Stage II controls, boilers and heaters, small printing facilities, and mid-size printing facilities that meet certain size, throughput, and process requirements. Each PBR exemption has requirements for emission limitation and/or control, monitoring and/or recordkeeping, reporting, and testing. Furthermore, the PBR exemptions rule now includes general provisions for recordkeeping, record retention, notification, and reporting requirements that apply to all sources utilizing the PBR exemptions. The general provisions clarify that the PBR exemptions do not exempt any source from the requirements of the Clean Air Act, including but not limited to, being considered for purposes of determining whether a facility constitutes a major source or being included in a Title V permit application.

In a December 1, 2008 letter, Ohio provided technical support for the PBR and PTIO provisions to demonstrate that the provisions are protective of the national ambient air quality standards, prevention of significant deterioration increments, reasonable further progress demonstrations and visibility, and are

not in violation of section 193 of the Clean Air Act, “General Savings Clause.”

In a February 14, 2012 letter, Ohio provided a survey of the estimated emissions from the state’s organic liquid storage tanks to demonstrate that the modified permanent exemption for organic liquid storage tanks would have no negative impact on air quality. In a May 24, 2012 email, Ohio clarified that in the context of this exemption, an “organic liquid” is an organic compound at the temperature and pressure experienced inside the storage tank, and that the organic liquid would have to remain a liquid to qualify for the exemption. The email further clarified that the “submerged fill” mentioned in this rule is the same as a “submerged fill pipe” as defined in OAC 3745–21–01(C)(6).

2. PTIO and General Permit Programs

OAC Chapter 3745–35, which contained the rules for PTOs and Federally Enforceable State Operating Permits, is being rescinded in its entirety from the SIP. OAC 3745–31–29 (“General permits-to-install and general PTIO”) is being added to the SIP to make Ohio’s general PTIs and general PTIOs federally enforceable. General PTIs and general PTIOs are based on model permits issued by OEPA. Sources may apply for coverage under a model permit rather than apply for individual permits. Only minor sources may qualify for coverage under a general permit.

Other, previously approved parts of Ohio’s SIP are being modified as follows:

a. OAC 3745–15–03 (“Submission of emission information”), is being modified to replace all instances of “Board Director” to “Director.”

b. OAC 3745–31–01 (“Definitions”), which provides definitions for the permit program, is being expanded to include definitions for “permits to install and operate,” “PTIOs,” and “express permit processing.” The SIP revision submittal includes changes to the definitions of “Air contaminant source” and “Major stationary source” but, per OEPA’s request in its July 18, 2008 submittal, we are not approving these two changes at this time.

c. OAC 3745–31–02 (“Requirements”) now requires sources to obtain PTIs or PTIOs before installation or modification, whether or not such sources are subject to Title V of the Clean Air Act (administered in Ohio under OAC 3745–77). Existing PTIs and PTOs remain effective until superseded by PTIOs. Note that this rule no longer contains the previously approved rule’s

provisions applying to solid waste disposal facilities and land application of sludge.

d. OAC 3745–31–04 (“Applications”) is being expanded to require PTIO applications.

e. OAC 3745–31–05 (“Criteria for decision by the director”) is being expanded to require PTIOs to contain the Best Available Technology (BAT), which is a previously SIP-approved requirement. Certain terms from the rescinded OAC 3745–35, such as conditional permits, are being incorporated into the new PTIO rules. Per Ohio’s request in its July 18, 2008 submittal, we are not presently approving the provision that exempts sources with the potential to emit less than 10 tons per year from the BAT requirement.

f. OAC 3745–31–06 (“Termination”) is being rescinded in its entirety and replaced by a new OAC 3745–31–06 (“Completeness determination, processing requirements, public participation, public notice, and issuance”).

g. OAC 3745–31–07 (“Revocation”) is being expanded to cover termination, expiration, renewal, revision, and transfer.

h. OAC 3745–31–08 (“Procedure for decision by director”) is being rescinded in its entirety and replaced by a new OAC 3745–31–08 (“Registration status permit-to-operate”) that provides the ongoing requirements for non-Title V sources that received registration status under the rescinded OAC 3745–35.

i. OAC 3745–31–09 (“Air permit-to-install completeness determinations, public participation, and public notice”) is being rescinded in its entirety and replaced by a new OAC 3745–31–09 (“Variances on operation”) that has the provisions for variances that were in the rescinded 3745–35.

j. OAC 3745–31–10 (“Air stationary source obligations”) is undergoing relocation of certain terms to other parts of the SIP.

k. OAC 3745–31–20 is undergoing minor revisions to update rule citations.

l. OAC 3745–31–22 is undergoing removal of two references to pollution control projects, a component of federally required New Source Review (NSR) Reform regulations that was vacated from the Federal NSR program.

III. What action is EPA taking?

EPA is approving the modification of OAC 3745–31–03 to incorporate PBRs for auto body refinishing facilities, gasoline dispensing facilities with Stage I controls, gasoline dispensing facilities with Stage I and Stage II controls, boilers and heaters, small printing

facilities, and mid-size printing facilities. EPA is approving the modification of OAC 3745–31–03 to incorporate permanent exemptions for organic liquid storage tanks of less than 19,815-gallon capacity, between 19,815 and 39,894-gallon capacity, and tanks of 39,894-gallon or greater capacity. EPA is approving the rescission of OAC 3745–35 and the modification of OAC 3745–15–03, 3745–31–01, 3745–31–02, 3745–31–04, 3745–31–05, 3745–31–06, 3745–31–07, 3745–31–08, 3745–31–09, 3745–31–10, 3745–31–20, and 3745–31–22 to accommodate Ohio's PTIO program, reorganize other provisions, and remove vacated NSR Reform provisions. EPA is approving OAC 3745–31–29, the program for General PTIs and General PTIOs, as an addition to the SIP.

We are publishing this action without prior proposal because we view this as a noncontroversial amendment and anticipate no adverse comments. However, in the proposed rules section of this **Federal Register** publication, we are publishing a separate document that will serve as the proposal to approve the state plan if relevant adverse written comments are filed. This rule will be effective November 30, 2012 without further notice unless we receive relevant adverse written comments by October 31, 2012. If we receive such comments, we will withdraw this action before the effective date by publishing a subsequent document that will withdraw the final action. All public comments received will then be addressed in a subsequent final rule based on the proposed action. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. If we do not receive any comments, this action will be effective November 30, 2012.

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does

not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and

the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 30, 2012. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the proposed rules section of today's **Federal Register**, rather than file an immediate petition for judicial review of this direct final rule, so that EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Reporting and recordkeeping requirements.

Dated: July 20, 2012.

Susan Hedman,

Regional Administrator, Region 5.

40 CFR part 52 is amended as follows:

PART 52—[AMENDED]

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

- 2. Section 52.1870 is amended by revising paragraphs (c)(42), (c)(51), (c)(98)(i), and (c)(119)(i)(A), and by adding paragraph (c)(156) to read as follows:

§ 52.1870 Identification of plan.

* * * * *

(c) * * *

(42) On February 25, 1980, the State of Ohio submitted the revised Ohio Administrative Code (OAC) Rules 3745–35–01 through 3745–35–04 which set forth requirements for air permits to operate and variances. These rules were adopted on September 28, 1979 and became effective in Ohio on November

7, 1979. Rescinded in 2008; see paragraph (c)(156) of this section.

* * * * *

(51) On October 1, 1982, and February 28, 1983 the State of Ohio submitted revisions to Ohio Administrative Code (OAC) Rules 3745–35–03 which set forth requirements for obtaining variances. Rescinded in 2008; see paragraph (c)(156) of this section.

* * * * *

(98) * * *

(i) Incorporation by reference. Rule 3745–35–07, adopted November 3, 1994, effective November 18, 1994. Rescinded in 2008; see paragraph (c)(156) of this section.

* * * * *

(119) * * *

(i) * * *

(A) Ohio Administrative Code 3745–35–02, adopted April 4, 1994, effective April 20, 1994. Rescinded in 2008; see paragraph (c)(156) of this section.

* * * * *

(156) On April 24, 2006, Ohio EPA submitted two permanent exemptions from the Permit to Install program and six Permit-by-Rule provisions for approval into its SIP. On July 18, 2008, Ohio EPA submitted provisions for a Permit to Install and Operate (PTIO) program and a general permit program for approval into its SIP. The changes to Ohio's SIP involve the modification of various parts of OAC 3745–31, the removal of OAC 3745–35, and the addition of OAC 3745–31–29 to enable the issuance of federally enforceable general PTIs and general PTIOs. On June 30, 2008, the state regulations to implement the PTIO program became effective and OAC 3745–35 was rescinded.

(i) Incorporation by reference.

(A) Paragraph (A) of Ohio Administrative Code Rule 3745–15–03, "Submission of emission information.", effective June 30, 2008.

(B) Ohio Administrative Code Rule 3745–31–01, "Definitions.", effective December 14, 2007, except for paragraphs (I), (LLL)(2)(a)(xxi), (LLL)(4)(t), and (QQQ)(1)(b).

(C) Ohio Administrative Code Rule 3745–31–02, "Applicability, requirements, and obligations.", effective June 30, 2008.

(D) Ohio Administrative Code Rule 3745–31–03, "Exemptions.", effective June 30, 2008.

(E) Ohio Administrative Code Rule 3745–31–04, "Applications.", effective June 30, 2008.

(F) Ohio Administrative Code Rule 3745–31–05, "Criteria for decision by the director.", effective June 30, 2008, except for paragraph (A)(3)(a)(ii).

(G) Ohio Administrative Code Rule 3745–31–06, "Completeness determinations, processing requirements, public participation, public notice, and issuance.", effective June 30, 2008.

(H) Ohio Administrative Code Rule 3745–31–07, "Termination, revocation, expiration, renewal, revision and transfer.", effective June 30, 2008.

(I) Ohio Administrative Code Rule 3745–31–08, "Registration status permit-to-operate.", effective June 30, 2008.

(J) Ohio Administrative Code Rule 3745–31–09, "Variances on operation.", effective June 30, 2008.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R04–OAR–2012–0343; FRL–9734–5]

Approval and Promulgation of Implementation Plans; Alabama 110(a)(1) and (2) Infrastructure Requirements for the 1997 and 2006 Fine Particulate Matter National Ambient Air Quality Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is taking final action to approve the State Implementation Plan (SIP) submission, submitted by the State of Alabama, through the Alabama

Department of Environmental Management (ADEM), as demonstrating that the State meets certain state implementation plan (SIP) requirements of sections 110(a)(1) and (2) of the Clean Air Act (CAA or the Act) for the 1997 annual and 2006 24-hour fine particulate matter (PM_{2.5}) national ambient air quality standards (NAAQS). Section 110(a) of the CAA requires that each state adopt and submit a SIP for the implementation, maintenance, and enforcement of each NAAQS promulgated by EPA, which is commonly referred to as an "infrastructure" SIP. Alabama certified that the Alabama SIP contains provisions that ensure the 1997 annual and 2006 24-hour PM_{2.5} NAAQS are implemented, enforced, and maintained in Alabama (hereafter referred to as "infrastructure submission"). Alabama's infrastructure submissions, provided to EPA on July 25, 2008, and September 23, 2009, addressed all the required infrastructure elements for the 1997 annual and 2006 24-hour PM_{2.5} NAAQS with the exception of sections 110(a)(2)(D)(i) and (E)(ii), which will be addressed in separate actions.

DATES: This rule is effective October 31, 2012.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR–2012–0343. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information is not publicly available, i.e., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303–8960. EPA requests that if at all possible, you contact the person listed in the FOR FURTHER INFORMATION CONTACT section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday, 8:30 to 4:30 excluding federal holidays.
