DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Clean Water Act, Clean Air Act, Emergency Planning and Community Right-To-Know Act, and Resource Conservation and Recovery Act

On December 22, 2017, the Department of Justice filed an amended complaint and lodged a revised proposed consent decree with the United States District Court for the Western District of Pennsylvania in the lawsuit entitled *United States and Territory of American Samoa v. StarKist Co. and Starkist Samoa Co.*, Civil Action No. 2:17-cv-01190-DSC. The amended complaint and revised proposed consent decree supersede the complaint and proposed consent decree filed by the Department of Justice in this action on September 12, 2017 and noticed for public comment in 82 FR 43,573 (Sept. 18, 2017).

In addition to the allegations in the original complaint, the amended complaint, which is filed by the United States and the Territory of American Samoa, alleges three new violations of the Clean Water Act (“CWA”) related to unpermitted discharges from Starkist’s facility to Pago Pago Harbor. First, the amended complaint alleges that Starkist discharged stormwater associated with industrial activity without a permit between June 2, 2015 and the present. Second, the amended complaint alleges that Starkist discharged a milky-white substance that contained pollutants from its facility through a stormwater outfall on 5 occasions between July 13, 2017 and October 30, 2017. Finally, the amended complaint alleges that Starkist discharged pollutants from a sewage lift station overflow pipe at its facility into the harbor on September 20, 2017. For each of these violations, the amended complaint seeks injunctive relief and civil penalties.

The amended complaint also adds a claim for relief by the Territory for violations of the American Samoa Environmental Quality Act and its implementing regulations based on the same facts underlying the United States’ claims for relief. In particular, the amended complaint alleges that Starkist’s unauthorized discharges and its discharges that exceeded effluent limitations in its NPDES permit violated the requirement in the American Samoa Environmental Quality Commission Rules that such discharges comply with NPDES rules and regulations. In addition, the amended complaint alleges that each of Starkist’s violations of Section 112(r) of the Clean Air Act

related to the handling of ammonia, butane, and chlorine at the facility violated the American Samoa Environmental Quality Commission Rules requirement to comply with the federal Clean Air Act. For each of these violations, the Territory seeks civil penalties.

The revised proposed consent decree requires the defendants to perform injunctive relief, and pay an increased civil penalty of \$6,500,000 (an increase of \$200,000) to resolve the additional CWA violations alleged in the amended complaint, as well as the original alleged violations. Starkist must pay \$3,900,000 to the United States and \$2,600,000 to the Territory.

The revised proposed consent decree requires the defendants to perform the injunctive relief included in the previously-lodged consent decree, as well as to address the additional CWA violations. It requires Starkist to obtain authorization to discharge stormwater from the facility, to implement best management practices, and prepare a plan to reduce, minimize, and eliminate pollutants in stormwater discharges from the facility. The decree also requires Starkist to identify and eliminate any connections between the facility’s industrial processes and its stormwater collection system. Finally, the revised proposed Consent Decree formalizes the role of the Territory in the implementation of the revised Consent Decree. The revised consent decree also replaces the process flow diagram in Appendix C to include an updated diagram.

The publication of this notice opens a period for public comment on the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. StarKist Co. and Starkist Samoa Co.*, D.J. Ref. No. 90-5-1-1-11357. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

DEPARTMENT OF LABOR

Employment and Training Administration

Labor Certification Process for the Temporary Employment of Aliens in Agriculture in the United States: Adverse Effect Wage Rate for Range Occupations in 2018; Correction

AGENCY: Employment and Training Administration, Department of Labor.

ACTION: Notice: Correction.

SUMMARY: The Employment and Training Administration (ETA) of the Department of Labor (Department) published a notice in the **Federal Register** on December 22, 2017, announcing the 2018 Adverse Effect Wage Rate (AEWR) for the employment of temporary or seasonal nonimmigrant foreign workers (H–2A workers) to perform herding or production of livestock on the range. That notice contained two different figures as the 2018 AEWR, one correct (\$1,584.22/month) and the other incorrect. This notice corrects the incorrect figure.

DATES: January 1, 2018.

FOR FURTHER INFORMATION CONTACT:

William W. Thompson, II, Administrator, Office of Foreign Labor Certification, Box #12–200, Employment & Training Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. Telephone number: 202–513–7350 (this is not a toll-free number).

Individuals with hearing or speech impairments may access the telephone number above via TTY by calling the toll-free Federal Information Relay Service at 1–877–889–5627.

Correction

In the **Federal Register** of Friday, December 22, 2017, in FR Doc. 17–27530, on page 60768, in the third column, correct the first paragraph to read:

Thus, the national monthly AEWR rate for all range occupations in the H–2A program in 2018 is calculated by multiplying the full AEWR for calendar year 2017 by the 2018 ECI adjustment ($\$1544.07 \times 1.026 = \$1,584.22$). Accordingly, any employer certified or seeking certification for range workers must pay each worker a wage that is at least the highest of the monthly AEWR of \$1,584.22, the agreed-upon collective bargaining wage, or the applicable minimum wage imposed by Federal or State legislation or judicial action, at the time work is performed on or after the effective date of this notice.

Nancy Rooney,

Deputy Assistant Secretary, Employment and Training Administration.

Michel Smyth by telephone at 202–693–4129, TTY 202–693–8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Certification and Qualification to Examine, Test, Operate Hoists, and to Perform Other Duties information collection. More specifically, this ICR pertains to the certification of certain persons to perform specific examinations and tests. This ICR also seeks to extend PRA approval for procedures under which a coalmine operator is required to maintain a list of certified and qualified persons, and to develop an approved training plan for hosting engineers or host operators. A respondent uses the Safety and Health Activity Certification or Hoisting Engineer Qualification Request, Form MSHA–5000–41, in order to comply with the subject information collection requirements. Federal Mine Safety & Health Act of 1977 section 103(h) authorizes this information collection. *See* 30 U.S.C. 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5
