Abstract: The LEAP and SLEAP programs use matching Federal and State Funds to provide a nationwide system of grants to assist postsecondary educational students with substantial financial need. On this performance report the states provide information the Department requires about the state's use of program funds in order to demonstrate compliance with the program's statutory and regulatory requirements. Federal program officials use the performance report data for monitoring program funds distribution. With the clearance of this collection, the Department is seeking to automate the performance reporting process for both the LEAP Program and the subprogram, SLEAP. There are no significant changes to the current LEAP form data elements, there are however, additional items pertaining to the SLEAP program.
