Description: Through this proposed data collection of Volunteer Centers and their community partners, the Corporation seeks to conduct an assessment of the implementation of the Points of Light Foundation (POLF) Strengthening Communities Initiative and the current needs of these organizations. The data collection will utilize two surveys to collect information from the Volunteer Centers and their community partners: *VISTA-POLF Strengthening Communities Initiative Volunteer Center Survey* and *VISTA-POLF Strengthening Communities Initiative Community Partner Survey*.

The information will be collected electronically through online survey forms. An attempt will be made by the Corporation to collect and record verbal responses for those respondents who do not complete the online survey form. The data from these reports, along with evaluation data generated by other Corporation-funded studies, will be used in assessing the degree to which Corporation policies are promoting growth and expansion of volunteer recruitment and management capacity within volunteer centers and community-based nonprofit organizations. The results of these analyses will be used in determining training and technical assistance priorities for the Corporation and in refining grant guidelines to promote program effectiveness.
