# CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

## **Sunshine Act Meeting**

TIME AND DATE: June 8, 2017, 1:00 p.m. EDT

**PLACE:** U.S. Chemical Safety Board, 1750 Pennsylvania Ave. NW., Suite 910, Washington, DC 20006.

**STATUS:** Open to the public.

## MATTERS TO BE CONSIDERED: The

Chemical Safety and Hazard Investigation Board (CSB) will convene a public meeting on June 8, 2017, starting at 1:00 p.m. EDT in Washington, DC, at the CSB offices located at 1750 Pennsylvania Avenue NW., Suite 910. The Board will vote to change the status of three recommendations that were calendared for public consideration. The recommendations are related to the 2012 Chevron Richmond Refinery investigation (2012–03–I–CA–R28) and the 2013 Williams Olefins investigation (2013–03–I–LA–R1 and R3). The Board will also provide an overview of its participation in Safe and Sound Week. An opportunity for public comment will be provided.

#### Additional Information

The meeting is free and open to the public. If you require a translator or interpreter, please notify the individual listed below as the "Contact Person for Further Information," at least three business days prior to the meeting.

A conference call line will be provided for those who cannot attend in person. Please use the following dial-in number to join the conference: (888) 862–6557 Confirmation Number 44851150#.

The CSB is an independent, non-regulatory federal agency charged with investigating accidents and hazards that result, or may result, in the catastrophic release of extremely hazardous substances. The agency's Board Members are appointed by the President and confirmed by the Senate. CSB investigations look into all aspects of chemical accidents and hazards, including physical causes such as equipment failure as well as inadequacies in regulations, industry standards, and safety management systems.

### **Public Comment**

The time provided for public statements will depend upon the number of people who wish to speak. Speakers should assume that their presentations will be limited to three minutes or less, but commenters may submit written statements for the record.

#### **Contact Person for Further Information**

## Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau. Title: American Community Survey Methods Panel Tests, 2017 Adaptive Strategy Test.

OMB Control Number: 0607–0936. Form Number(s): ACS–1, ACS CATI, ACS CAPI, ACS Internet.

Type of Request: Non-substantive Change Request.

Number of Respondents: 288,000. Average Hours per Response: 40 minutes.

Burden Hours: No additional burden hours are requested under this nonsubstantive change request.

Needs and Uses: The American Community Survey (ACS) collects detailed socioeconomic data from about 3.5 million households in the United States and 36,000 in Puerto Rico each year. The ACS also collects detailed socioeconomic data from about 195,000 residents living in Group Quarter (GQ) facilities. An ongoing data collection effort with an annual sample of this magnitude requires that the ACS continue research, testing, and evaluations aimed at reducing respondent burden, improving data quality, achieving survey cost efficiencies, and improving ACS questionnaire content and related data collection materials. The ACS Methods Panel is a research program that is designed to address and respond to issues and survey needs.

Residents of sampled housing units are initially invited to self-respond to the survey through a series of mailings. Mail materials are sent to sampled housing units using an internet push strategy. This method encourages households to respond via Internet in the first two mailings and then provides a paper questionnaire in the third (sent about two weeks after the first mailing), followed by additional reminders. The internet was added as a mode of data collection to the ACS in 2013. The addition of this mode helped lower the data collection costs for the ACS and provided a convenient way for respondents to complete the survey. However, this frustrates some respondents who do not have Internet
