**SUPPLEMENTARY INFORMATION:** A notice was published in the **Federal Register**, March 11, 2005 (70 FR 12174), requesting comments on the possible revisions of the United States Standards for Grades of Persian (Tahiti) Limes. The proposed revisions would simplify the color and juice requirements of the standards which are complex and difficult to apply. Additionally, the Agricultural Marketing Service (AMS) is seeking comments regarding any other revisions that may be necessary to better serve the industry. The comment period ended May 10, 2005.

Three comments were received from industry associations representing Persian (Tahiti) lime handlers, expressing the need for additional time to comment on the possible revisions. The associations requested the comment period be extended to allow the associations an opportunity to meet further with their members to discuss the possible revisions.

After reviewing the request, AMS is reopening and extending the comment period in order to allow sufficient time for interested persons, including the association, to file comments.
