Title of Collection: Borrower Defenses Against Loan Repayment.

OMB Control Number: 1845–0132.

Type of Review: An extension without change of a currently approved collection.

Respondents/Affected Public: Individuals and Households.

Total Estimated Number of Annual Responses: 150,000.

Abstract: This is a request for an extension of the current information collection for Form 1845–0132. The U.S. Department of Education (ED) continues to require the collection of this information from borrowers who believe they have cause to request the borrower defense to loan repayment forgiveness of a student loan as noted in regulation in 1998 Reauthorization of the Higher Education Act (HEA) (Sec. 455(h)). This burden continues to be necessary to ensure Hald, Everest and/or WyoTech College borrowers who wish to invoke the borrower defense against repayment of federal student loans can do so in a uniform and informed manner.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public’s reporting burden. It also helps the public understand the Department’s information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Title of Collection: Student Assistance General Provisions—Non-Title IV Revenue Requirements (90/10).

OMB Control Number: 1845–0096.

Type of Review: A revision of a currently approved collection.

Respondents/Affected Public: Private Sector.

Total Estimated Number of Annual Responses: 10.

Total Estimated Number of Annual Burden Hours: 5.

Abstract: The regulations in 34 CFR 668.28 provide that a proprietary institution must derive at least 10% of its annual revenue from sources other than Title IV, HEA funds, identifies sanctions for failing to meet this requirement, and otherwise implement the statute. An institution discloses in a footnote to its audited financial statements the amounts of Federal and non-Federal revenues, by category, that it used in calculating its 90/10 ratio (see section 487(d) of the HEA).

The publication of final regulations on September 2, 2020, removed section 668.285(b) regarding Net Present Value in the calculation of the 90/10 ratio and reserved this subparagraph as of the effective date of the regulation, July 1, 2021. With the cancellation of the requirement to calculate the Net Present Value, we are revising the current information collection to estimate the burden for the reporting of the sanction to the Department only.

This request is to revise the currently approved a information collection package, OMB Control Number 1845–0096, to include burden hours based on section 668.28(c) Sanctions. The information collection requirements in the regulations are necessary to determine eligibility to receive program benefits and to prevent fraud and abuse of program funds.

Dated: January 5, 2022.

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.
