BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 3025-031]

Green Mountain Power Corporation; Notice of Effectiveness of Withdrawal of License Application

On March 30, 2022, Green Mountain Power Corporation (GMP) filed a relicense application for the 450-kilowatt Kelley's Falls Hydroelectric Project No. 3025. On December 29, 2022, GMP filed a notice of withdrawal of its application.

No motion in opposition to the notice of withdrawal has been filed, and the Commission has taken no action to disallow the withdrawal. Pursuant to Rule 216(b) of the Commission's Rules of Practice and Procedure,¹ the withdrawal of the application became effective on January 13, 2023, and this proceeding is hereby terminated.

Dated: January 17, 2023.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2004-0077; FRL-10427-01-OAR]

Proposed Information Collection Request; Comment Request; Significant New Alternatives Policy (SNAP) Program (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), "Significant New Alternatives Policy

(SNAP) Program (Renewal)" (EPA ICR No. 1596.11, OMB Control No. 2060-0226) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through August 31, 2023. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before March 27, 2023.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OAR-2004-0077, online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Christina Thompson, Stratospheric Protection Division, Office of Atmospheric Programs, (Mail Code 6205A), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-0983; email address: thompson.christina@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the

accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Information collected under this rulemaking is necessary to implement the requirements of the Significant New Alternatives Policy (SNAP) program for evaluating and regulating substitutes for ozone-depleting substances (ODS) being phased out under the stratospheric ozone protection provisions of the Clean Air Act (CAA) and globally under the *Montreal Protocol on Substances that Deplete the Ozone Layer*. Under CAA section 612, EPA is authorized to identify and restrict the use of substitutes for class I and class II ODS (listed in 40 CFR part 82, subpart A, appendices A and B) where EPA determines other alternatives are available or potentially available that reduce overall risk to human health and the environment. Any producer of a new substitute must submit a notice of intent to introduce a substitute into interstate commerce 90 days prior to such introduction. The producer must also provide EPA with information covering a wide range of health and environmental factors. The SNAP program, based on information collected from the manufacturers, formulators, and/or sellers of such substitutes, identifies acceptable substitutes. Responses to the collection of information are mandatory under section 612 for anyone who sells or, in certain cases, uses substitutes for an ODS after April 18, 1994, the effective date of the final rule. Measures to protect confidentiality of information collected under the SNAP program are based on EPA's confidentiality regulations (40 CFR 2.201 *et seq.*, or Subpart B). Submitters may designate all or portions of their forms or petitions as confidential. EPA requires the

¹ 18 CFR 385.216(b) (2022).

submitters to substantiate their claim of confidentiality. Under CAA section 114(c), emissions information may not be claimed as confidential.

To develop the lists of acceptable and unacceptable substitutes, the Agency must assess and compare “overall risks to human health and the environment” posed by use of substitutes in the context of particular applications. EPA requires submission of information covering a wide range of health and environmental factors. These include intrinsic properties such as physical and chemical information, atmospheric effects including ozone depleting potential and global warming potential, toxicity, and flammability, and use-specific data such as substitute applications, process description, environmental release data, exposure data during use of a substitute, environmental fate and transport, and cost information of the substitute. Once a completed submission has been received, the SNAP program will commence its review. Any substitute which is a new chemical must also be submitted to the Agency under the Premanufacture Notice program under the Toxic Substances Control Act (TSCA). Alternatives that will be used as sterilants must be filed jointly with EPA’s Office of Pesticide Programs and with SNAP.

Form Numbers: 1264–14;1265–14.

Respondents/affected entities:

Manufacturers, importers, formulators and processors of substitutes for ODS.

Respondent’s obligation to respond: Mandatory (40 CFR 82.176).

Estimated number of respondents: 154 (per year).

Frequency of response: Annual.

Total estimated burden: 4,855 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$444,249, which includes \$22,912 annualized capital or O&M costs.

Changes in estimates: There is a decrease of 702 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. The Agency anticipates the number of submissions to the SNAP program to remain the same as the previous ICR during the next 3 years. Many of the recent SNAP submissions, and those anticipated over the next three years, are for chemicals previously found acceptable for other SNAP applications or for blends of alternatives already found acceptable. For the expected submissions, the burden of developing supporting information for the majority of these submissions is expected to decrease because it is easier to find and review information for

substitutes that have been reviewed previously. EPA estimates a reduction in the number of respondents responsible for recordkeeping for substitutes acceptable subject to use conditions and narrowed use limits. The increased availability of alternatives reduces the need for industry to use alternatives previously listed as acceptable subject to narrowed use limits.

Cynthia A. Newberg,

Director, Stratospheric Protection Division.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OGC–2023–0028; FRL–10587–01–OGC]

Proposed Consent Decree, Clean Air Act Citizen Suit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed consent decree; request for public comment.

SUMMARY: In accordance with the Clean Air Act, as amended (CAA or the Act), the Environmental Protection Agency (EPA or the Agency) is providing notice of a proposed consent decree in *California Communities Against Toxics, et al. v. Regan*, No. 1:22–cv–01012–CRC (D.D.C.). On April 12, 2022, Plaintiffs California Communities Against Toxics, Coalition For A Safe Environment, and Sierra Club filed a complaint in the United States District Court in the District of Columbia. In the complaint, which was amended on July 6, 2022, Plaintiffs allege that EPA failed to perform its non-discretionary duty to review and revise as necessary the National Emission Standards for Hazardous Air Pollutants from Oil and Natural Gas Production Facilities and Natural Gas Transmission and Storage Facilities. Plaintiffs further allege that EPA has unreasonably delayed in responding to Plaintiffs’ 2012 petition for administrative reconsideration of the final rule *Oil and Natural Gas Sector: New Source Performance Standards and National Emission Standards for Hazardous Air Pollutants Reviews*. The proposed consent decree would establish deadlines for EPA to sign proposed and final actions.

DATES: Written comments on the proposed consent decree must be received by February 23, 2023.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–HQ–OGC–2023–0028, online at [https://](https://www.regulations.gov)

www.regulations.gov (EPA’s preferred method). Follow the online instructions for submitting comments.

Instructions: All submissions received must include the Docket ID number for this action. Comments received may be posted without change to <https://www.regulations.gov>, including any personal information provided. For detailed instructions on sending comments and additional information on the rulemaking process, see the “Additional Information about Commenting on the Proposed Consent Decree” heading under the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT:

Amy Huang Branning, Air and Radiation Law Office, Office of General Counsel, U.S. Environmental Protection Agency; telephone (202) 564–1744; email address branning.amy@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining a Copy of the Proposed Consent Decree

The official public docket for this action (identified by Docket ID No. EPA–HQ–OGC–2023–0028) contains a copy of the proposed consent decree. The official public docket is available for public viewing at the Office of Environmental Information (OEI) Docket in the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the OEI Docket is (202) 566–1752.

The electronic version of the public docket for this action contains a copy of the proposed consent decree and is available through <https://www.regulations.gov>. You may use <https://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the official public docket, and access those documents in the public docket that are available electronically. Once in the system, key in the appropriate docket identification number then select “search.”

II. Additional Information About the Proposed Consent Decree

On April 12, 2022, Plaintiffs California Communities Against Toxics, Coalition For A Safe Environment, and Sierra Club (collectively “Plaintiffs”) filed a complaint in the United States District Court for the District of Columbia alleging that EPA has failed to
