

2. Establish a process to identify brittle-like cracking failures. Identification of failure types and site installation conditions can yield valuable information that can be used in predicting the performance of the system.

3. Use a consistent record format to collect data on system failures. The AGA Plastic Failure Report form (Appendix F of the AGA Plastic Pipe Manual) provides an example of a report for the collection of failure data.

4. Collect failure samples of polyethylene piping exhibiting brittle-like cracking. Evidence of brittle-like cracking may warrant laboratory testing. Although every failure may not warrant testing, collecting samples at the time of failure would provide the opportunity to conduct future testing should it be deemed necessary.

5. Whenever possible record the print line from any piping that has been involved in a failure. The print line information can be used to identify the resin, manufacturer and year of manufacture for plastic piping.

6. For systems where there is no record of the piping material, consider recording print line data when piping is excavated for other reasons. Recording the print line data can aid in establishing the type and extent of polyethylene piping used in the system. (49 U.S.C. chapter 601; 49 CFR 1.53)

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 34276]

Massachusetts Port Authority-Acquisition Exemption-Certain Assets of Boston and Maine Corporation

The Massachusetts Port Authority (Massport), a noncarrier, has filed a notice of exemption under 49 CFR 1150.31 to acquire from the Boston and Maine Corporation (B&M) certain railroad rights-of-way and related improvements, totaling approximately 1.45 miles, in Charlestown, Suffolk County, MA. Massport proposes to acquire B&M's right, title and interest in the rail line, known as the Mystic Wharf

Branch line, between milepost 0.00 and milepost 1.45.¹

Massport indicates that it does not intend to conduct rail operations over the line, but is acquiring it to preserve the rail right-of-way and availability of rail service to the Port. Massport further indicates that it may develop an adjacent haul road on the property at a later date. According to Massport, B&M will retain an exclusive permanent easement on the line for rail operations, and its affiliate Springfield Terminal Railway Company will continue to be responsible for providing rail operations over the line. Massport will not obtain the right or obligation to provide rail freight service on the line. Massport certifies that its projected revenues as a result of this transaction will not result in the creation of a Class II or Class I rail carrier.

The parties reported that they intended to consummate the transaction on November 13, 2002.

If the notice contains false or misleading information, the exemption is void *ab initio*.² Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34276, must be filed with the Surface Transportation Board, 1925 K Street, NW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Keith G. O'Brien, REA, CROSS & AUCHINCLOSS, 1707 L Street NW., Suite 570, Washington, DC 20036.

Decided: November 19, 2002.

By the Board, David M. Konschnik,
Director, Office of Proceedings.

Vernon A. Williams,

Secretary.
