BILLING CODE 7537-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-302]

Florida Power Corporation, Crystal River Unit 3 Nuclear Generating Plant; Exemption

1.0 Background

Florida Power Corporation (the licensee) is the holder of Facility Operating License No. DPR-72, which authorizes operation of the Crystal River Unit 3 Nuclear Generating Plant (Crystal River). The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (the Commission) now or hereafter in effect.

The facility consists of one pressurized-water reactor located in Citrus County, Florida.

2.0 Request/Action

Title 10 of the Code of Federal Regulations (10 CFR) Section 55.59 requires that a facility's licensed operator requalification program be conducted for a continuous period not to exceed 2 years (24 months) and upon conclusion must be promptly followed, pursuant to a continuous schedule, by successive requalification programs. Each 2-year requalification program must include a biennial comprehensive written examination and annual operating tests.

By letter dated March 6, 2003, the licensee requested a one-time exemption under 10 CFR 55.11 from the schedule requirements of 10 CFR 55.59. Specifically, for Crystal River, the licensee has requested a one-time extension from December 31, 2004, to February 28, 2005, for completing the current licensed operator requalification program. The next requalification program period would begin March 1, 2005, and continue for 24 months to February 28, 2007, with successive periods running for 24 months. This requested exemption would allow an extension of 2 months beyond the 24-month requalification program schedule required by 10 CFR 55.59.

3.0 Discussion

Pursuant to 10 CFR 55.11, the Commission may, upon application by
