The Attorney General has delegated authority under the CSA and all subsequent amendments to the CSA to the Administrator of the DEA pursuant to 28 CFR 0.100. The Special Surveillance List may be updated as needed to reflect changes in the chemicals, products, materials, or equipment used in the manufacture of controlled substances and listed chemicals by publication of a notice in the **Federal Register**. DEA will disseminate the updated Special Surveillance List as widely as possible. In addition, the Special Surveillance List will be available on the DEA Diversion Control homepage at <https://www.deadiversion.usdoj.gov/>.

Regulatory Analyses

The updated Special Surveillance List applies to all individuals and firms which distribute the listed chemicals and laboratory supplies (chemicals, products, materials, or equipment) on the list. As noted above, the Special Surveillance List serves two purposes. First, it informs individuals and firms of the potential use of the items on the list in the manufacture of controlled substances and listed chemicals. Second, it reminds individuals and firms that civil penalties may be imposed on them if they distribute a laboratory supply to a person with reckless disregard for the illegal use to which such a laboratory supply will be put.

This update provides an increased level of law enforcement control to prevent the diversion of laboratory supplies used for the manufacture of listed chemicals and controlled substances. It does not impose any new regulatory burden on the public as there are no corresponding recordkeeping or reporting requirements of the laboratory supplies. However, it does impose potential civil penalties for the distribution of a laboratory supply to a person who uses, or attempts to use, that laboratory supply to manufacture a controlled substance or a listed chemical, if that distribution was made with reckless disregard for the illegal uses to which such laboratory supply will be put. This update fulfills the requirement imposed by section 205 of the MCA that the Attorney General shall publish a Special Surveillance List which contains chemicals, products,

materials, or equipment used in the manufacture of listed chemicals and controlled substances.
