Food Safety and Inspection Service

Title: Records to be Kept by Official Establishments and Retail Stores that Grind Raw Beef Products.

OMB Control Number: 0583–0165.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, not adulterated, and properly labeled and packaged.

FSIS requires that all grinders or choppers of raw beef products, beef manufacturing trimmings, or trimmings fabricated at retail intended for use in raw ground or chopped beef products, including retail facilities, are persons required by FMIA to keep records which will fully and correctly disclose all transactions involved in their business subject to the Act. If not doing so already, these businesses must maintain records that disclose the identity and supplier of all materials used in the preparation of each lot of raw ground or chopped beef product.

Need and Use of the Information: FSIS requires that all establishments and retail stores that grind or chop beef products are required to keep these records. These records provide critical information about how, when, and where raw ground or chopped beef product was prepared, shipped, received, stored, and handled, which are essential to illness outbreak investigations, recalls, and other agency public health activities conducted by FSIS.

In addition, FSIS requires that specific information be kept in the required records and that retail stores maintain store-designed systems that allow them to link individual packages of raw ground or chopped beef products prepared and sold by them to the

required records. The required records must include the following information:

1. Name, point of contact (name, title, email, and facsimile number) telephone number, and establishment number of the Federal, State, or foreign establishment supplying the raw source material,

2. Supplier lot numbers and production dates for each raw source material used; and,

3. The names of the supplied materials.
