[Docket No. CP00-51-001]

East Tennessee Natural Gas Company; Notice of Amendment

May 19, 2000.

Take notice that on May 10, 2000, East Tennessee Natural Gas Company (East Tennessee), 1001 Louisiana, Houston, Texas 77002, filed with the Commission in Docket NO. CP00-51-001 an amendment to the pending application filed on December 17, 1999, in Docket No. CP00-51-000, pursuant to Section 7(c) of the Natural Gas Act (NGA), to reflect change in the locations of meter stations, main line valves, and manifolds for which certificate authorization is sought, all as more fully set forth in the amendment which is open to the public for inspection.

By the pending application in Docket No. CP00-51-000, East Tennessee proposes to construct, install, and operate: (1) 15.16 miles of 12-inch

diameter pipeline looping in Washington, Smyth, and Wythe Counties, Virginia; (2) three meter stations in McGinn, Greene, and Roane Counties, Tennessee, and a modification to an existing meter station in Morgan County, Tennessee; (3) approximately 0.62 miles of 22-inch diameter replacement pipe on East Tennessee's 3100 Line in Smith and Overton Counties, Tennessee. Finally, East Tennessee's 3100 Line: and (4) approximately 450 feet of 10-inch and 12-inch diameter replacement pipeline, in addition to two mainline valves on East Tennessee's 3200 Line at the Tennessee River Crossing. Additionally, East Tennessee seeks certain other authorizations, including authorization to up rate four compressor units located at Station 3101 in Robertson County, Tennessee, and Station 3210 in Marion County, Tennessee, and authorization to hydrostatically test to increase the Maximum Allowable Operating Pressure (MAOP) of 26.42 miles of pipe on East Tennessee requests that the Commission authorize the abandonment of approximately 0.62 miles of pipe being replaced align East Tennessee's 3100 Line plus 250 feet of pipe, two mainline valve assemblies and miscellaneous fittings and appurtenances being replaced along the 3200 Line by the above-referenced replacement pipe. East Tennessee submits that these activities are necessary to provide additional firm transportation service to eight customers on the part of East Tennessee's pipeline system located in eastern Tennessee and southwestern Virginia (Rocky Top Expansion Project).

In the subject amendment, East Tennessee seeks to modify its original request for certificate authority by requesting authorization to, *inter alia*, change the locations of the proposed Lenior City and Etowah meter stations. East Tennessee now proposes to construct, install, and operate the Lenior City meter station at Mile Post 3.99, instead of at Mile Post 4.35 south of Main Line Valve 3112-1 as originally proposed, on its 3100 Line in Roane County, Tennessee. East Tennessee also proposes to construct, install, and operate the Etowah meter station at mile Post 3.59 south of Main Line Valve 3217-1 as originally proposed, but on the other side of the road, on its 3200 Line in McMinn County, Tennessee.

East Tennessee also proposes to modify its original proposal with various changes in work space requirements and construction rights-of-way to meet the Commission's template. East Tennessee's other proposed modifications include the following:
