Description

Human remains representing, at minimum, one individual were removed from Santa Barbara County, CA. Catalog records on file at ASM indicate the human remains were removed from "an Indian burial ground" on Santa Rosa Island, CA, by C.W. Smith circa 1920. Smith worked on the island as a ranch superintendent when the land was privately owned by Arizona ranchers Walter L. Vail and J.V. Vickers. The human remains were later brought to the Arizona State Museum in 1920 by E.L. Vail, a descendant of Walter L. Vail. The human remains, represented by a mandible, belong to an adult male. No associated funerary objects are present.

Cultural Affiliation

The human remains in this notice are connected to one or more identifiable

earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological, archeological, biological, folkloric, geographical, and historical.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the Arizona State Museum has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- There is a relationship of shared group identity that can be reasonably traced between the human remains described in this notice and the Santa Ynez Band of Chumash Mission Indians of the Santa Ynez Reservation, California.

Repatriation of the human remains in this notice to a requestor may occur on or after September 22, 2023. If competing requests for repatriation are received, the Arizona State Museum must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests.
