The commenter further recommends that the study pay special attention to the matter of data matching procedures, covering such matters as the use of Social Security Numbers and partial matches on consumer identifiers. The matter of data matching procedures has been reviewed in the 2004 Report to Congress, and staff does not anticipate that this study will specifically address the internal data matching procedures used by credit bureaus. However, the contractor will keep a detailed narrative regarding each participant, including specific errors alleged and their subsequent disposition. In tabulating the types of confirmed errors via the dispute process, the study will acquire a great deal of information on the main sources of error in credit reports.<sup>21</sup> Further, in regard to an expressed concern from Mr. Hendricks about recognizing ID theft as an important source of error, the category of alleged error called “not mine” will be separated into the subcategories of “mixed file” and “ID theft.”

**Analysis of Agreement Containing Consent Order To Aid Public Comment**

The Federal Trade Commission (“FTC” or “Commission”) has accepted, subject to final approval, a consent

agreement from Directors Desk LLC (“Directors Desk”).

The proposed consent order has been placed on the public record for thirty (30) days for receipt of comments by interested persons. Comments received during this period will become part of the public record. After thirty (30) days, the Commission will again review the agreement and the comments received, and will decide whether it should withdraw from the agreement and take appropriate action or make final the agreement’s proposed order.

This matter concerns alleged false or misleading representations that Directors Desk made to consumers concerning its participation in the Safe Harbor privacy framework (“Safe Harbor”) agreed upon by the U.S. and the European Union (“EU”). It is among the Commission’s first cases to challenge deceptive claims about the Safe Harbor. The Safe Harbor provides a mechanism for U.S. companies to transfer data outside the EU consistent with European law. To join the Safe Harbor, a company must self-certify to the U.S. Department of Commerce (“Commerce”) that it complies with seven principles and related requirements. Commerce maintains a public website, ([www.export.gov/safeharbor](http://www.export.gov/safeharbor)), where it posts the names of companies that have self-certified to the Safe Harbor. The listing of companies indicates whether their self-certification is “current” or “not current.” Companies are required to re-certify every year in order to retain their status as “current” members of the Safe Harbor framework.

Directors Desk provides an online application that allows members of corporate boards of directors to access board meeting materials, board minutes, and other related documents through a website ([www.directorsdesk.com](http://www.directorsdesk.com)). According to the Commission’s complaint, Directors Desk set forth on its website privacy policies and statements about its practices, including statements that it is a current participant in the Safe Harbor.

The Commission’s complaint alleges that Directors Desk falsely represented that it was a current participant in the Safe Harbor when, in fact, from February 2008 until August 2009, Directors Desk was not a current participant in the Safe Harbor. The Commission’s complaint alleges that in February 2007, Directors Desk submitted to Commerce a self-certification, which it did not renew in February 2008. Commerce then updated its status to “not current” on the Commerce public website. Directors Desk remained in “not current” status

until it submitted a self-certification to Commerce in August 2009.

The proposed order applies to Directors Desk's representations about its membership in any privacy, security, or any other compliance program sponsored by the government or any other third party. It contains provisions designed to prevent Directors Desk from engaging in the future in practices similar to those alleged in the complaint.

Part I of the proposed order prohibits Directors Desk from making misrepresentations about its membership in any privacy, security, or any other compliance program sponsored by the government or any other third party.

Parts II through VI of the proposed order are reporting and compliance provisions. Part II requires Directors Desk to retain documents relating to its compliance with the order for a five-year period. Part III requires dissemination of the order now and in the future to persons with responsibilities relating to the subject matter of the order. Part IV ensures notification to the FTC of changes in corporate status. Part V mandates that Directors Desk submit an initial compliance report to the FTC, and make available to the FTC subsequent reports. Part VI is a provision "sunsetting" the order after twenty (20) years, with certain exceptions.

The purpose of the analysis is to facilitate public comment on the proposed order. It is not intended to constitute an official interpretation of the agreement and proposed order or to modify in any way their terms.

By direction of the Commission.
