

The CDFI Fund is responsible for certifying organizations as CDEs, and administering the competitive allocation of tax credit authority to CDEs, which it does through annual allocation rounds. As part of the award selection process, all CDEs are required to prepare and submit the Application, which includes four key sections (Business Strategy; Community Impact; Management Capacity; and Capitalization Strategy). During the first phase of the review process, each Application is rated and scored independently by three different readers.

In scoring each Application, reviewers rate each of the four evaluation sections as follows: Weak (0–5 points); Limited (6–10 points); Average (11–15 points); Good (16–20 points); and Excellent (21–25 points). Applications can be awarded up to ten additional “priority” points for demonstrating a track record of serving disadvantaged business and communities and/or for committing to make investments in projects owned by unrelated parties. If one or more of the three readers provides an anomalous score, and it is determined that such an anomaly would affect the outcome of the final awardee pool, then a fourth reviewer will score the Application, and the anomalous score would likely be dropped.

Once all of the scores have been finalized, including anomaly score adjustments, those Applications that meet minimum aggregate scoring thresholds in each of the four major review sections (as well as a minimum overall scoring threshold) are eligible to be considered for an allocation. They are reviewed by an internal CDFI Fund panel, with a Lead Panelist making an award recommendation to a Panel Manager, and the Panel Manager making an award recommendation to the Selecting Official. If the Selecting Official’s award recommendation varies significantly from the recommendation of the Panel Manager, then a Reviewing Official makes the final award determination. Awards are made, in descending order of the final rank score, until the available allocation authority for a given round is fully expended.
