

to the event. The minutes and list of attendees for each meeting will be available to the public and open for 30 days following the publication of this notice to any participant who wishes to clarify the views they expressed. Early participation is encouraged and will help determine the future management of the public lands burned by the Timbered Rock Fire.

ADDRESSES: Written comments should be sent to the Bureau of Land Management, ATTN: Jean Williams, 3040 Biddle Road, Medford, OR 97504. Comments, including names and street addresses of respondents, will be available for public review at the Medford District office during regular business hours (7:45 AM to 4:30 PM) Monday through Friday, except holidays, and may be published as part of the environmental analysis or other related documents. Individual respondents may request confidentiality. If you wish to withhold your name or address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

FOR FURTHER INFORMATION CONTACT: For further information, and/or to have your name added to our mailing list, contact Jean Williams at (541) 618-2385 or John Bergin at (541) 618-2265.

SUPPLEMENTARY INFORMATION: Restoration of lands and economic recovery of resources damaged by wildfire are important activities following control of wildfires. The level and intensity of these activities can vary greatly depending upon a variety of factors. Public lands administered by the BLM in the Timbered Rock Fire are located entirely within a Late-Successional Reserve (LSR) and Tier 1 Key watershed and contains 18 owl activity centers. These land use allocations will have an effect on restoration actions and salvage opportunities that will be addressed in the Environmental Impact Statement. The environmental analyses will, as appropriate, address a range of restorative options, salvage opportunities, and potential long-term study opportunities. A No Action Alternative will be analyzed. One or more of the alternatives may address some modification to Standards and

Guidelines from the Northwest Forest Plan (NFP), the Medford District Resource Management Plan (RMP), and site-specific LSR Assessments (LSRA) that apply to the fire. Input from the scoping process will be used to determine the scope of the analysis consistent with the requirements of 40 CFR 1501.7 and 1508.22. The scoping process includes:

- Defining the scope of the analysis and the nature of the decisions to be made.
- Identify the issues for consideration within the environmental analyses;
- Identify possible alternatives;
- Identify possible or potential environmental effects;
- Identify groups or individuals that would be interested in or affected by the restorative or economic recovery actions.

The BLM will seek information, comments, and assistance from Federal, State, and local agencies and other individuals, organizations, or businesses interested in or affected by the actions. Disciplines that may be included on the analysis team include forestry, soils, hydrology, fisheries, wildlife, fuels management, and others.

Possible cooperating agencies include the U.S. Fish and Wildlife Service, the National Marine Fisheries Service, the Army Corps of Engineers, and the Rogue River National Forest. The public is asked to identify issues they believe should be assessed in the Environmental Impact Statement and provide ideas and suggestions on restorative actions and economic recovery of timber resources and alternatives they think should be considered.

Dated: December 4, 2002.

Acting Oregon/Washington State Director.

SUMMARY: The Bureau of Land Management (BLM) is issuing final supplementary rules to apply to the public lands within the Little Sahara Special Recreation Management Area, Fillmore Field Office, Utah. The rules are necessary for the management of actions, activities, and public use on certain public lands which may have or are having adverse impacts on persons using public lands, on property, and on resources located on public lands located in, or acquired for inclusion within, the Little Sahara Special Recreation Management Area.

EFFECTIVE DATE: February 24, 2003.

ADDRESSES: Mail: Bureau of Land Management, 35 E 500 N, Fillmore, Utah 84631. Personal or messenger delivery: 35 E 500 N, Fillmore, Utah 84631.

SUPPLEMENTARY INFORMATION:

I. Publication of Proposed Supplementary Rules and Discussion of Comments

The proposed supplementary rules for the Little Sahara Special Recreation Management Area were published in the **Federal Register** on August 22, 2002 (67 FR 54456), and allowed 30 days for public comment.

We received no comments on the proposed supplementary rules. Therefore, we are publishing them as final supplementary rules without change, except for the following:

(1) We are correcting typographical or printing errors that appeared in the proposed supplementary rules;

(2) We are editorially changing the heading of Sec. 3.0 from "Permits and Fees" to "Fees and Contracts," which better reflects the contents of the following two sections; and

(3) We are adding to Sec. 1.2 the requirement that drivers must have either a valid motor vehicle operator's license or a safety certificate issued by the Utah Division of Parks and Recreation. We also removed the erroneous requirement in this section of the proposed supplementary rules that a child must be 8 years old or older to ride as a passenger on an OHV. These are not policy changes, but rather amendments to conform with Utah State law and rules (The Utah Off-Highway Vehicle Act, and The Utah Board of Parks and Recreation Rules, 41-22-30. Supervision, Safety Certificate, or Driver License Required—Penalty).

II. Discussion of the Supplementary Rules

The Utah State Director of the Bureau of Land Management is establishing these supplementary rules under 43 CFR 8365.1–6. They are necessary for the protection of persons, property and public lands and resources within—

- The Little Sahara Special Recreation Management Area,
- Lands acquired for inclusion in the Little Sahara Special Recreation Management Area, and
- All lands that may be incorporated into the Little Sahara Special Recreation Management Area.

These rules are in addition to and supplement the regulations found in 43 CFR part 8300.

The affected lands are located in the following areas:

III. Procedural Requirements

Executive Order 12866, Regulatory Planning and Review

These supplementary rules are not a significant regulatory action and are not subject to review by Office of

Management and Budget under Executive Order 12866. These supplementary rules will not have an effect of \$100 million or more on the economy. They are directed at preventing unlawful personal behavior on public lands, for purposes of protecting public health and safety. They will not adversely affect, in a material way, the economy, productivity, competition, jobs, the environment, public health or safety, or state, local, or tribal governments or communities. These proposed supplementary rules will not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency. The supplementary rules do not alter the budgetary effects of entitlements, grants, user fees, or loan programs or the rights or obligations of their recipients; nor do they raise novel legal or policy issues. The supplementary rules merely enable BLM law enforcement personnel to enforce state laws where appropriate on public lands.

National Environmental Policy Act

BLM has prepared an environmental assessment (EA) and has found that the supplementary rules do not constitute a major Federal action significantly affecting the quality of the human environment under section 102(2)(C) of the Environmental Protection Act of 1969 (NEPA), 42 U.S.C. 4332(2)(C). The supplementary rules will enable BLM law enforcement personnel to cite persons not obeying the rules of the Little Sahara Special Recreation Area for the purpose of protecting public health and safety. BLM has placed the EA and the Finding of No Significant Impact (FONSI) on file in the BLM Administrative Record at the address specified in the ADDRESSES section.

Regulatory Flexibility Act

Congress enacted the Regulatory Flexibility Act of 1980, as amended, 5 U.S.C. 601–612, (RFA) to ensure that Government regulations do not unnecessarily or disproportionately burden small entities. The RFA requires a regulatory flexibility analysis if a rule will have a significant economic impact, either detrimental or beneficial, on a substantial number of small entities. The supplementary rules do not pertain specifically to commercial or governmental entities of any size, but contain rules to protect the health and safety of individuals, property, and resources on the public lands. Therefore, BLM has determined under the RFA that these supplementary rules will not have a significant economic

impact on a substantial number of small entities.

Small Business Regulatory Enforcement Fairness Act (SBREFA)

These supplementary rules do not constitute a “major rule” as defined in SBREFA (5 U.S.C. 804(2)). Again, the supplementary rules pertain only to individuals who may use the public lands. In this respect, the regulation of such use is necessary to protect the public lands and facilities and those, including small business concessioners and outfitters, who use them. The supplementary rules have no effect on business-commercial or industrial use of the public lands.

Unfunded Mandates Reform Act

These supplementary rules do not impose an unfunded mandate on state, local, or tribal governments or the private sector of more than \$100 million per year; nor do these supplementary rules have a significant or unique effect on state, local, or tribal governments or the private sector. The supplementary rules do not require anything of state, local, or tribal governments. Therefore, BLM is not required to prepare a statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*)

Executive Order 12630, Governmental Actions and Interference With Constitutionally Protected Property Rights (Takings)

The supplementary rules do not represent a governmental action capable of interfering with constitutionally protected property rights. The supplementary rules do not address property rights in any form, and do not cause the impairment of anyone’s property rights. Therefore, the Department of the Interior has determined that the supplementary rules will not cause a taking of private property or require further discussion of takings implications under this Executive Order.

Executive Order 13132, Federalism

The supplementary rules will not have a substantial direct effect on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. The supplementary rules apply in only one state, Utah, and do not address jurisdictional issues involving the state government. Therefore, in accordance with Executive Order 13132, BLM has determined that these supplementary rules do not have sufficient Federalism

implications to warrant preparation of a Federalism Assessment.

Executive Order 12988, Civil Justice Reform

Under Executive Order 12988, Utah State Office of BLM has determined that these supplementary rules will not unduly burden the judicial system and that they meet the requirements of sections 3(a) and 3(b)(2) of the Order.

Executive Order 13175, Consultation and Coordination With Indian Tribal Governments

In accordance with E.O. 13175, we have found that this final rule would not include policies that have tribal implications. The rule would not affect lands held for the benefit of Indians, Aleuts, and Eskimos. The rule would apply only to persons driving OHVs on certain public lands in Utah.

Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

This rule is not a significant energy action. It will not have an adverse effect on energy supplies. It will have no discernible effect on the production or sale of energy minerals, and any effect on the consumption of such minerals, either in manufacturing OHV equipment or traveling to OHV areas, will be imperceptible, since the provision should not have a measurable effect on either activity.

Paperwork Reduction Act

These supplementary rules do not contain information collection requirements that the Office of Management and Budget must approve under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.*

Author

The principal author of these supplementary rules is Ferris Clegg of the Fillmore Field Office, assisted by Ted Hudson of the Regulatory Affairs Group, Washington Office, BLM.

State Director.
