

custodians for temporary display in the exhibition “ED RUSCHA/NOW THEN” at The Museum of Modern Art, New York, New York; the Los Angeles County Museum of Art, Los Angeles, California; and at possible additional exhibitions or venues yet to be determined, are of cultural significance, and, further, that their temporary exhibition or display within the United States as aforementioned is in the national interest. I have ordered that Public Notice of these determinations be published in the **Federal Register**.

**FOR FURTHER INFORMATION CONTACT:** Elliot Chiu, Attorney-Adviser, Office of the Legal Adviser, U.S. Department of State (telephone: 202-632-6471; email: [section2459@state.gov](mailto:section2459@state.gov)). The mailing address is U.S. Department of State, L/PD, 2200 C Street, NW (SA-5), Suite 5H03, Washington, DC 20522-0505.

**SUPPLEMENTARY INFORMATION:** The foregoing determinations were made pursuant to the authority vested in me by the Act of October 19, 1965 (79 Stat. 985; 22 U.S.C. 2459), E.O. 12047 of March 27, 1978, the Foreign Affairs Reform and Restructuring Act of 1998 (112 Stat. 2681, *et seq.*; 22 U.S.C. 6501 note, *et seq.*), Delegation of Authority No. 234 of October 1, 1999, Delegation of Authority No. 236-3 of August 28, 2000, and Delegation of Authority No. 523 of December 22, 2021.

**Scott Weinhold,**

*Principal Deputy Assistant Secretary for Educational and Cultural Affairs, Bureau of Educational and Cultural Affairs, Department of State.*

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

[Docket No. FAA-2023-1169]

#### Agency Information Collection Activities: Requests for Comments; Clearance of New Approval of Information Collection: Inflation Reduction Act Fueling Aviation's Sustainable Transition Grant Program

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request Office of Management and Budget (OMB) approval for a new information collection. The collection involves

soliciting project proposals for the Inflation Reduction Act (IRA) Fueling Aviation's Sustainable Transition (FAST) Grant Program. The information to be collected will be used to determine projects to be awarded FAST competitive discretionary grants.

**DATES:** Written comments should be submitted by July 24, 2023.

**ADDRESSES:** Please send written comments:

*By Electronic Docket:*  
[www.regulations.gov](http://www.regulations.gov) (Enter docket number into search field).

*By mail:* Federal Aviation Administration, Attn: Anna Oldani (AEE-500), 800 Independence Ave. SW, Washington, DC 20591.

**FOR FURTHER INFORMATION CONTACT:** Chris Dorbian by email at: [christopher.dorbian@faa.gov](mailto:christopher.dorbian@faa.gov); phone: 202-267-8156.

#### SUPPLEMENTARY INFORMATION:

*Public Comments Invited:* You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

*OMB Control Number:* 2120-XXXX.

*Title:* Inflation Reduction Act Fueling Aviation's Sustainable Transition Grant Program.

*Form Numbers:* Not applicable.

*Type of Review:* New information collection.

*Background:* The FAA is using this collection to solicit the information necessary to evaluate and select sustainable aviation fuel and low-emission aviation technology projects for funding under the Inflation Reduction Act (IRA), signed on August 16, 2022. Section 40007 of the Inflation Reduction Act of 2022 directs the Secretary of Transportation to implement a “competitive grant program for eligible entities to carry out projects located in the United States that produce, transport, blend, or store sustainable aviation fuel, or develop, demonstrate, or apply low-emission aviation technologies.” The Department of Transportation (DOT), Federal Aviation Administration (FAA) is seeking to establish this new grant program—named the Fueling Aviation's Sustainable Transition (FAST) Grant Program—and collect project proposals

via a Notice of Funding Opportunity (NOFO). FAST will have elements focused on sustainable aviation fuel (SAF), to be termed FAST-SAF, and elements focused on low-emission aviation technologies, to be termed FAST-Tech. The program aims to reduce the greenhouse gas emissions (GHG) associated with the aviation sector, in line with the net-zero GHG by 2050 goal outlined in the U.S. Aviation Climate Action Plan. The amount of available funding for the two programs is \$244.53M and \$46.53M for FAST-SAF and FAST-Tech, respectively.

The NOFO will solicit project proposals from eligible entities. The collected information is required for FAA to evaluate proposals and distribute IRA funds to address U.S. climate goals. Eligible entities who elect to compete for funding and obtain benefits from the FAST Grant Program will submit project information. The information collected is based on grant criteria outlined in the IRA Section 40007.

The FAA will use information submitted to evaluate and select projects for funding that most closely align with the criteria outlined in the NOFO. A team of subject matter experts in aircraft technology development and sustainable aviation fuels from the FAA and other government agencies will assess each application against the applicable criteria. The information FAA is collecting will include technical, project management, and cost proposals for candidate projects. Key evaluation criteria include the capacity for the project to increase the domestic production and deployment of SAF or the use of low-emission aviation technologies and the projected greenhouse gas emissions from such a project.

Project information will be solicited through a NOFO published to [grants.gov](https://www.faa.gov/grants). Applications will be collected via [grants.gov](https://www.faa.gov/grants). The NOFO will outline in detail the form of the full application.

*Respondents:* Eligible entities as outlined in IRA Section 40007.

*Frequency:* One-time application per phase of funding.

*Estimated Average Burden per Response:* Approximately 500 hours.

*Estimated Total Annual Burden:* Approximately 25,000 hours (assuming 50 applicants).

Issued in Washington, DC, on May 18, 2023.

**Kevin Welsh,**

*Executive Director, Federal Aviation Administration—Office of Environment and Energy.*

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

[Docket No.: FAA–2023–0474]

#### Agency Information Collection Activities: Requests for Comments; Clearance of Approval of Continuing Information Collection: Privacy International Civil Aviation Organization (ICAO) Address (PIA)

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, the FAA invites public comments about their intention to request Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on February 28, 2023. The collection involves an aircraft operator's request for a privacy ICAO address through a web-based application process. The information to be collected is necessary to qualify for the authorized use of the privacy ICAO address services and for monitoring to support continued airworthiness and enforcement activities.

**DATES:** Written comments should be submitted by May 31, 2023.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

*By mail:* Send comments to FAA at the following address: Mr. Evan Setzer, Program Manager, Service and Broadcast Services (AJM–42), Program Management Organization, Federal Aviation Administration, 600 Independence Ave. SW, Wilbur Wright Building, Washington, DC 20597.

**FOR FURTHER INFORMATION CONTACT:** For technical questions concerning this action, contact Mr. Jamal Wilson,

Surveillance and Broadcast Services, AJM–42, PIA Project Lead at [jamal.wilson@faa.gov](mailto:jamal.wilson@faa.gov) or by phone at (202) 267–4301.

#### SUPPLEMENTARY INFORMATION:

*Public Comments Invited:* You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

*OMB Control Number:* 2120–0779.

*Title:* Privacy International Civil Aviation Organization (ICAO) Address (PIA).

*Form Numbers:* Not applicable.

*Type of Review:* Renewal of an information collection.

*Background:* The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on February 28, 2023 (88 FR 12715). In 2010, the FAA issued a final rule mandating equipage requirements and performance standards for Automatic Dependent Surveillance-Broadcast (ADS–B) Out avionics on aircraft operating in certain airspace after December 31, 2019. Aircraft operators must be equipped with ADS–B Out to fly in most controlled airspace. Federal Regulations 14 CFR 91.225 and 14 CFR 91.227 contain requirement details. Each registered aircraft is assigned an aircraft registration number and an ICAO 24-bit aircraft address. This is also referred to as a “Mode S Code” in some FAA documents and websites, including the FAA Aircraft Registry. Where a 1090-MHz Extended Squitter (1090ES) transponder is required for ADS–B Out compliance, this ICAO 24-bit aircraft address, based on current transponder avionics standards, is openly broadcasted on the 1090 MHz frequency in transponder replies and ADS–B messages. Subsequently, the nature of openly broadcasting makes the identity of the aircraft publicly available. Industry stakeholders have long suggested that FAA develop a process for aircraft operators who seek anonymity such that their aircraft movements and identity cannot be traced or seen by privately owned sensors that monitor the 1090 MHz frequency and combine this with other downlinked ADS–B and Mode S data being disseminated using the internet. The FAA intends to develop a process for operators who wish to mask their

aircraft movements and identity for a period while flying within the sovereign airspace of the United States. Participation in the assignment of privacy ICAO Code addresses is voluntary. Only U.S. registered aircraft can be assigned a privacy ICAO aircraft address. No operator can use a privacy ICAO aircraft address for a U.S.-registered aircraft unless that operator is authorized to use a third-party flight identification for that same aircraft. No unique privacy ICAO address will be assigned to more than one U.S.-registered aircraft at any given time. Once approved, the operator will be assigned a privacy ICAO address. The operator will be required to notify the FAA when their avionics have been loaded with the assigned temporary ICAO 24-bit aircraft address. Owners and operators must verify that the ICAO 24-bit aircraft address (Mode S code) broadcast by their ADS–B equipment matches the assigned privacy ICAO address for their aircraft. Operators can verify what ICAO 24-bit aircraft address is being broadcast by their aircraft by visiting: <https://adsbperformance.faa.gov/PAPRRequest.aspx>. For monitoring privacy ICAO address use, the information will be downloaded by the FAA and entered into the FAA's ADS–B Performance Monitor [Docket No. FAA–2017–1194 published in **Federal Register**, December 20, 2017, as Document Number: 2017–27202].

*Respondents:* Intended for operators who seek anonymity such that their aircraft movements and identity cannot be easily traced or seen by privately owned sensors that monitor the 1090 MHz frequency. FAA estimates up to 15,000 respondents.

*Frequency:* Frequency will be occasional based on specific scenarios. An operator can change privacy ICAO aircraft addresses, but no more often than once every 20 days. In the event real-world security concerns become evident, an operator can elect to change their PIA address sooner than 20 days.

*Estimated Average Burden per Response:* Approximately 15 minutes per application.

*Estimated Total Annual Burden:* 12,563 hours.

**Jamal Wilson,**

*PIA Project Lead | In-Service Performance and Sustainment (AJM–4220), Federal Aviation Administration.*
